

ADOPTION VS SCALING

88% Use AI Agents. 23% Scale One.

McKinsey's own survey draws the line between adoption and infrastructure.

OPEN THE LEDGER

ENTRY 02 · THE MCKINSEY GAP

88% Adoption, 23% Actually Scaling

McKinsey: 88% of orgs use AI regularly, 72% use gen AI. Only 23% scale an agentic system in any function.

ENTRY 03 · SAME NUMBER, DIFFERENT STORY

39% Still Experimenting, 39% See EBIT Impact

Another 39% of organizations are still experimenting. Only 39% report any enterprise-level EBIT impact from AI at all.

ENTRY 04 · GARTNER FORECAST

Gartner's Number Is A Forecast, Not A Count

Gartner projects 40% of enterprise apps will feature task-specific AI agents by 2026, up from under 5% in 2025. A forecast is not a deployment.

ENTRY 05 · INFRASTRUCTURE FIRST

What Scaling Actually Requires

Wire the data pipes and approval logic before the agent runs alone.
Fallback paths get built before launch, not after.

Using An Agent Isn't Scaling One

If you can't point to a process running without you, you're still in the 65%.
