

# Codex Quietly Stopped Being A Coding Tool

Its fastest growing users this year have never opened a terminal.

SWIPE

# One In Five Codex Users Isn't A Developer

Knowledge workers are roughly 20% of Codex's user base, growing three times faster than developers.

■ NO. 03 · PLUGIN LINEUP

# Six Role-Specific Plugins, None Aimed At Engineers

Data analytics, creative production, sales, product design, equity investing, investment banking. Not one of them assumes you write code.

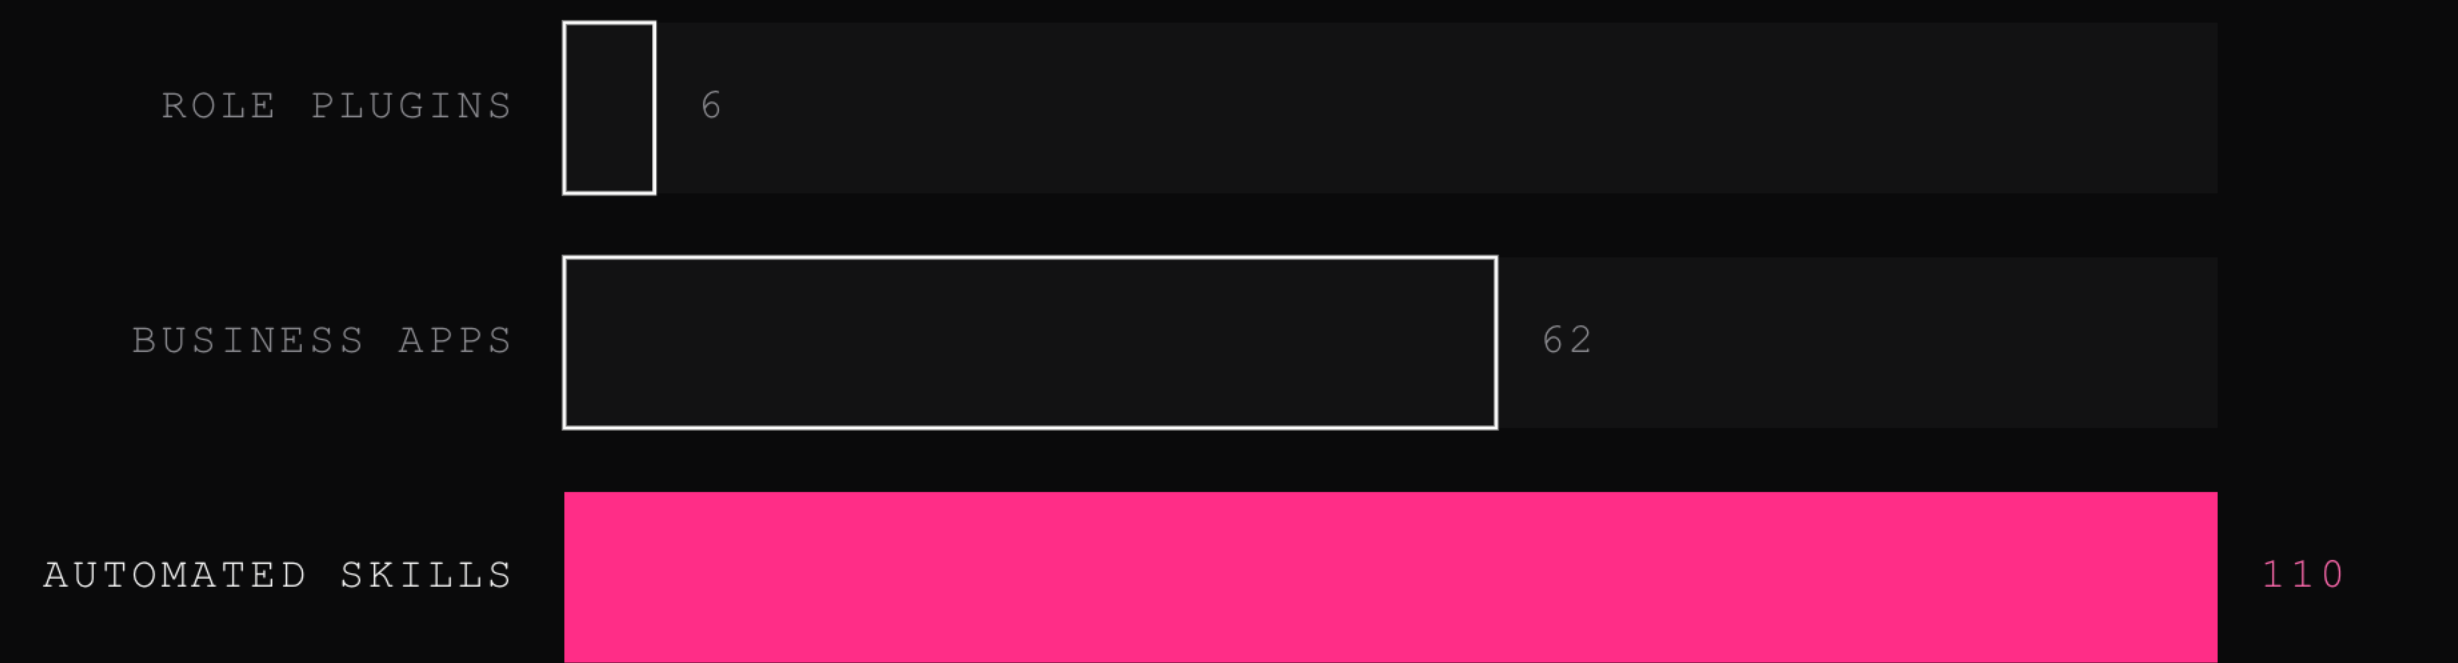

■ NO. 04 · BY THE NUMBERS

# The Scale Behind The Non-Developer Push

Six role-specific plugins bundle 62 business apps and 110 automated skills.

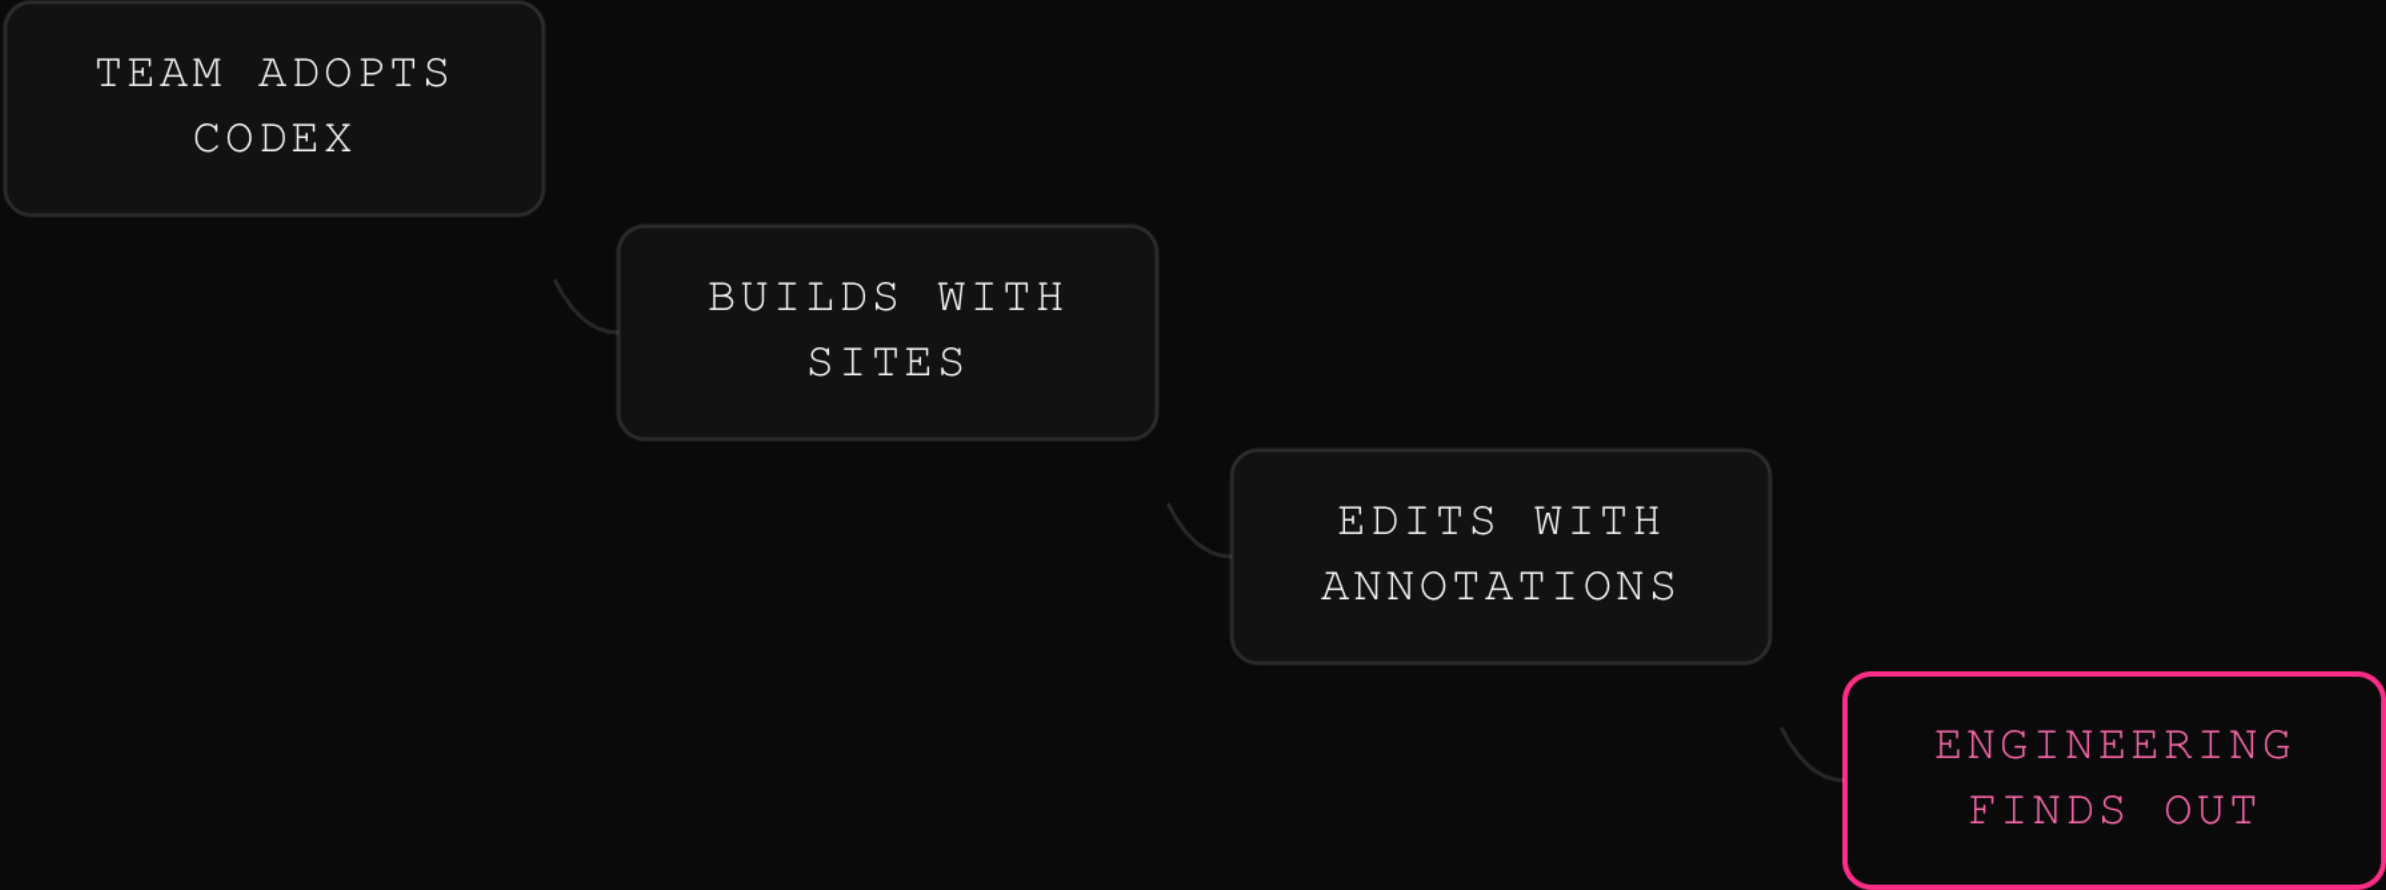

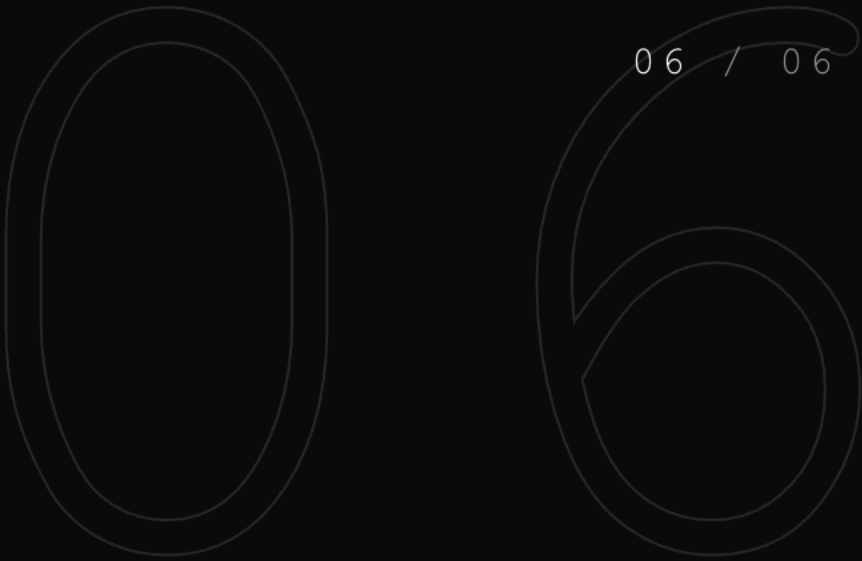

■ NO. 05 · THE AUDIT PATTERN

# How It Shows Up In Ops Audits

Finance builds with Sites. Ops edits with Annotations. Engineering finds out after the fact.

# Check Who's Already Running Codex

It's probably not who you think.
