

AGENT SPRAWL

96% think they know every agent

A Guild.ai survey of 362 IT decision-makers found 66.7% of orgs with agents still had an operational consequence.

OPEN THE LEDGER

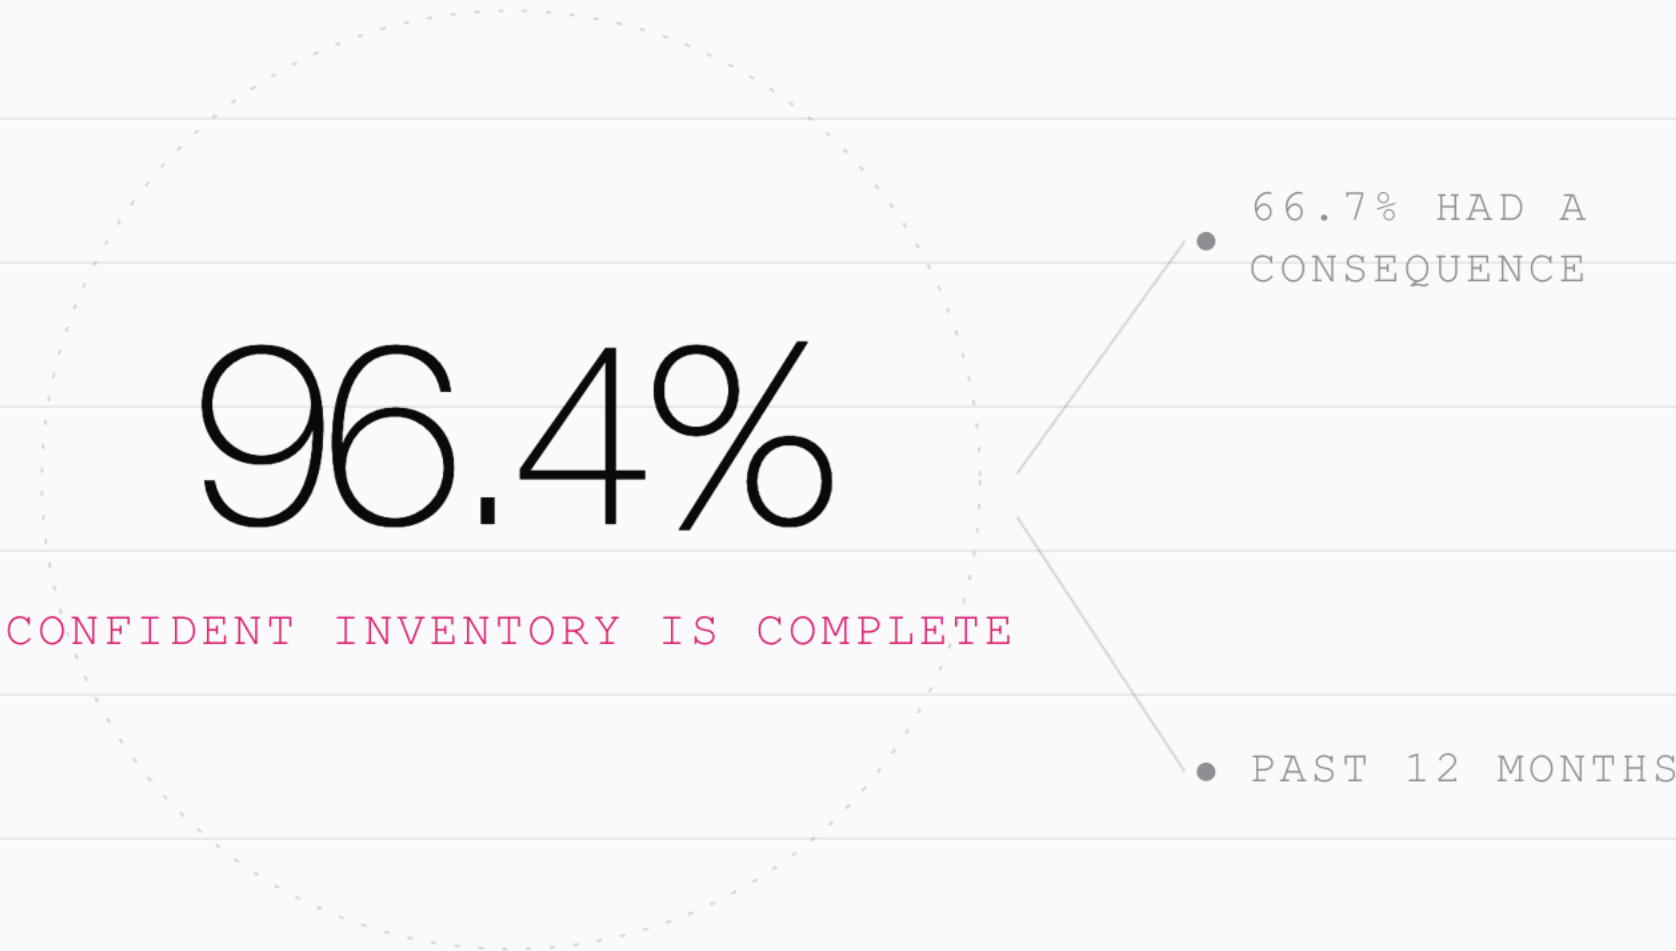

ENTRY 02 · THE GAP

Confidence and outcomes point opposite ways

96.4% are confident their agent inventory is complete and accurate.
66.7% of orgs with agents had an agent-related operational consequence in 12 months.
