

HUMAN IN THE LOOP

The AP Agent Drafts Everything. It Pays Nothing.

A finance team automated 3,000 invoices a month. A human still approves every payment.

READ ON —

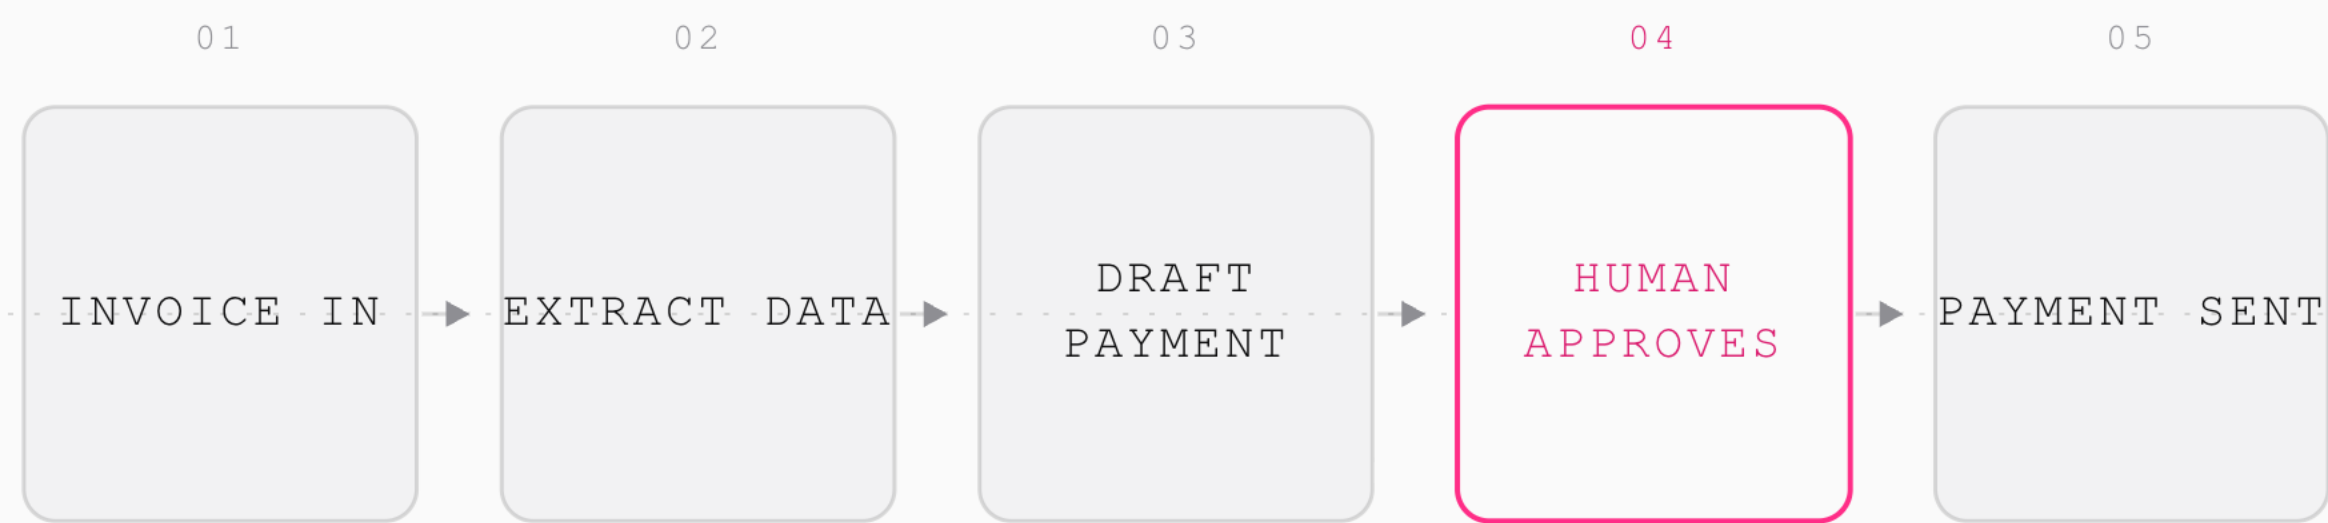

THE PIPELINE

Five Steps. One Gate Before Money Moves.

The agent runs the whole pipeline alone until the step it can't take back.

— AP AUTOMATION

The Numbers Nobody Leads With

3,000 invoices a month. 150+ hours saved. Zero paid without a human clicking approve.

THE ARCHITECTURE

What's Actually Running Underneath

Extraction, verification, and an audit trail, all stacked under one non-negotiable approval layer.

EXHIBIT 04

VERYDIAN

THE DRAFTING LINE

What The Agent Is Allowed To Draft

Anything reversible runs alone. Anything final waits for a person, no matter the confidence score.

DRAFT A MERGE

Check The Gate Before The Model

If a workflow feels risky, it's probably ungated, not unintelligent.
