AI agents aren't replacing teams. They're changing ratios.

Compounding work vs. maintenance work.

01 Your team copies data between systems daily

02 Decisions wait on a person, not data

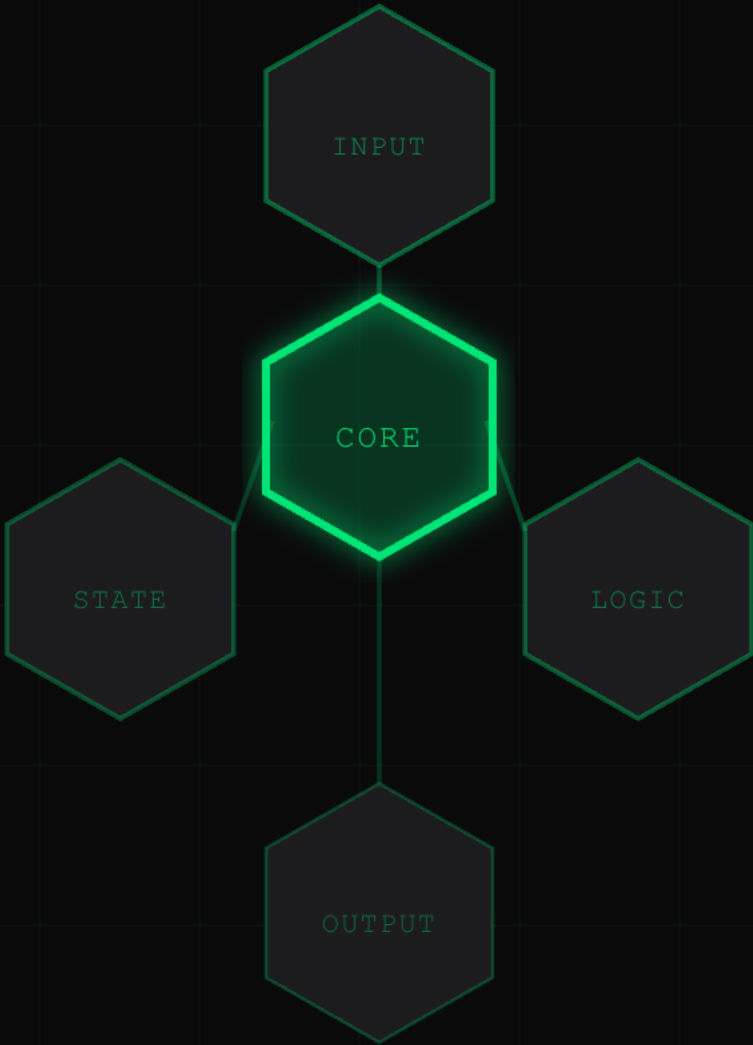

03 You've automated tasks but not workflows

IF YES TO ANY →
You need an agent, not another app.

2 Finance: costs down 70%.

Not because the team shrank. Because invoice matching, approval routing, and reconciliation stopped requiring human hours.

3 HR onboarding: cycle time cut 80%.

Same headcount. The first 60% of onboarding runs autonomously. HR handles escalations and human moments, not logistics.

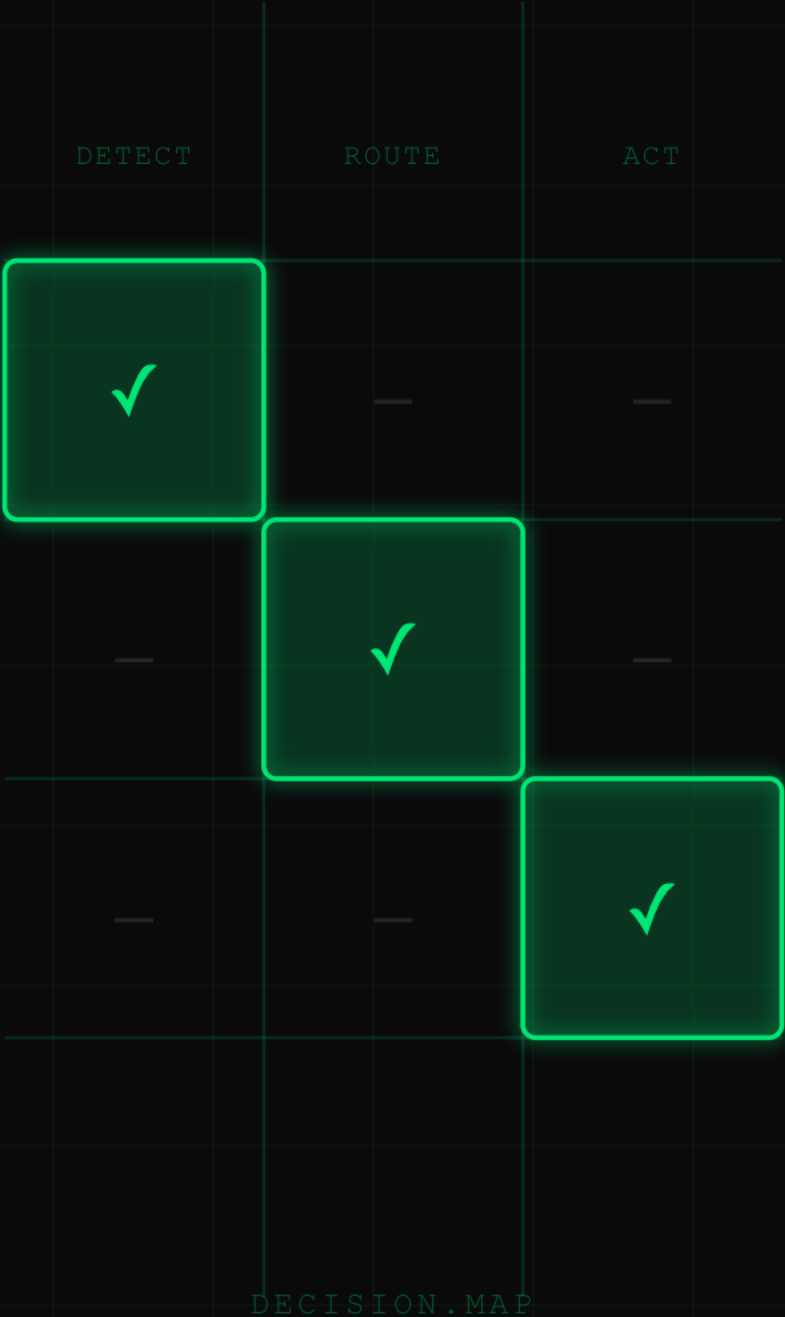

COMPARISON

4 Sales: 4x to 7x conversion improvement.

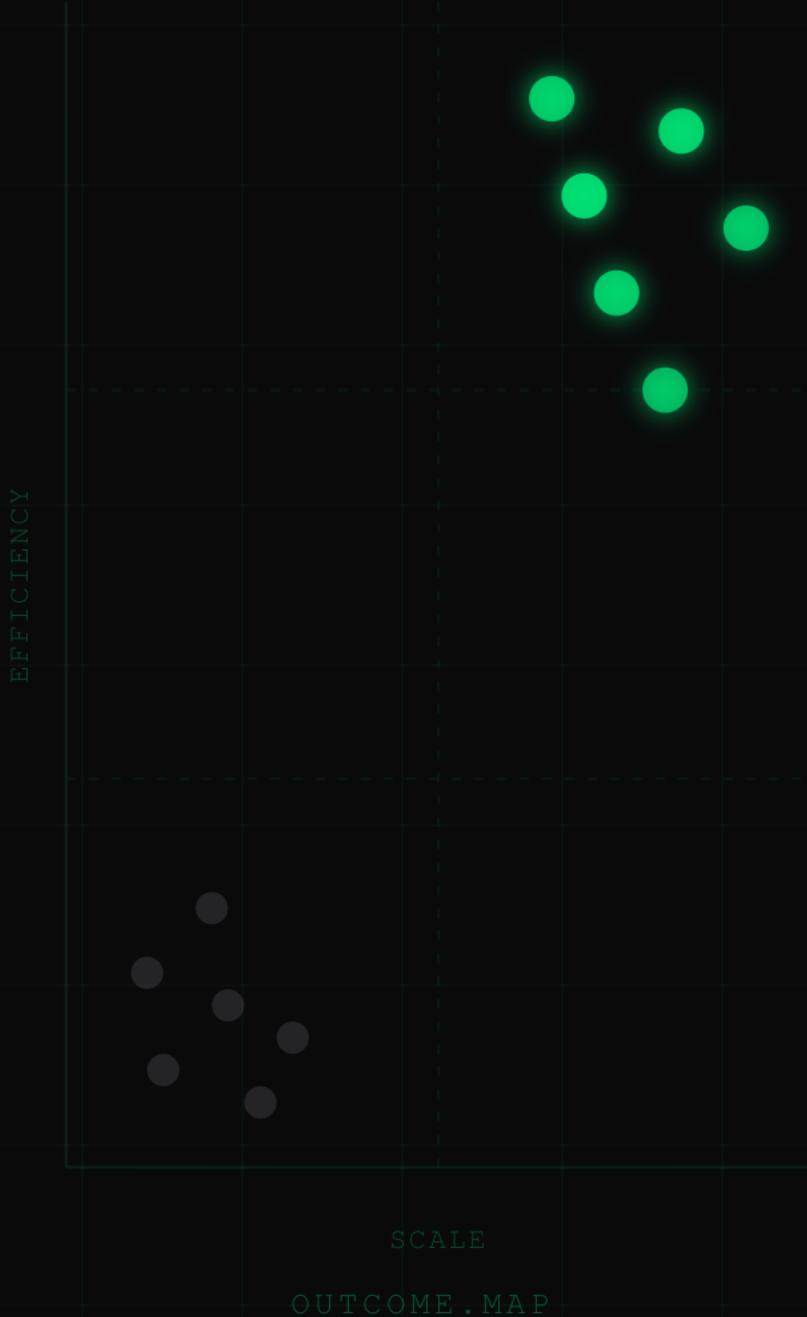

Reps didn't get better. They stopped spending time on work that doesn't require judgment.

5 Two kinds of work: compounding and maintenance.

Most teams spend the majority of their time on maintenance. Not by choice. Because the systems don't run it automatically.

□

6 The right question for ops leaders.

Not: can AI do this task. But: what will the team do with the hours they get back? That leads to much better outcomes.
