

TRUST GAP

85% Run Agents. 5% Trust Them With Anything Real.

Cisco's own research just put a number on the trust gap
everyone's been guessing at.

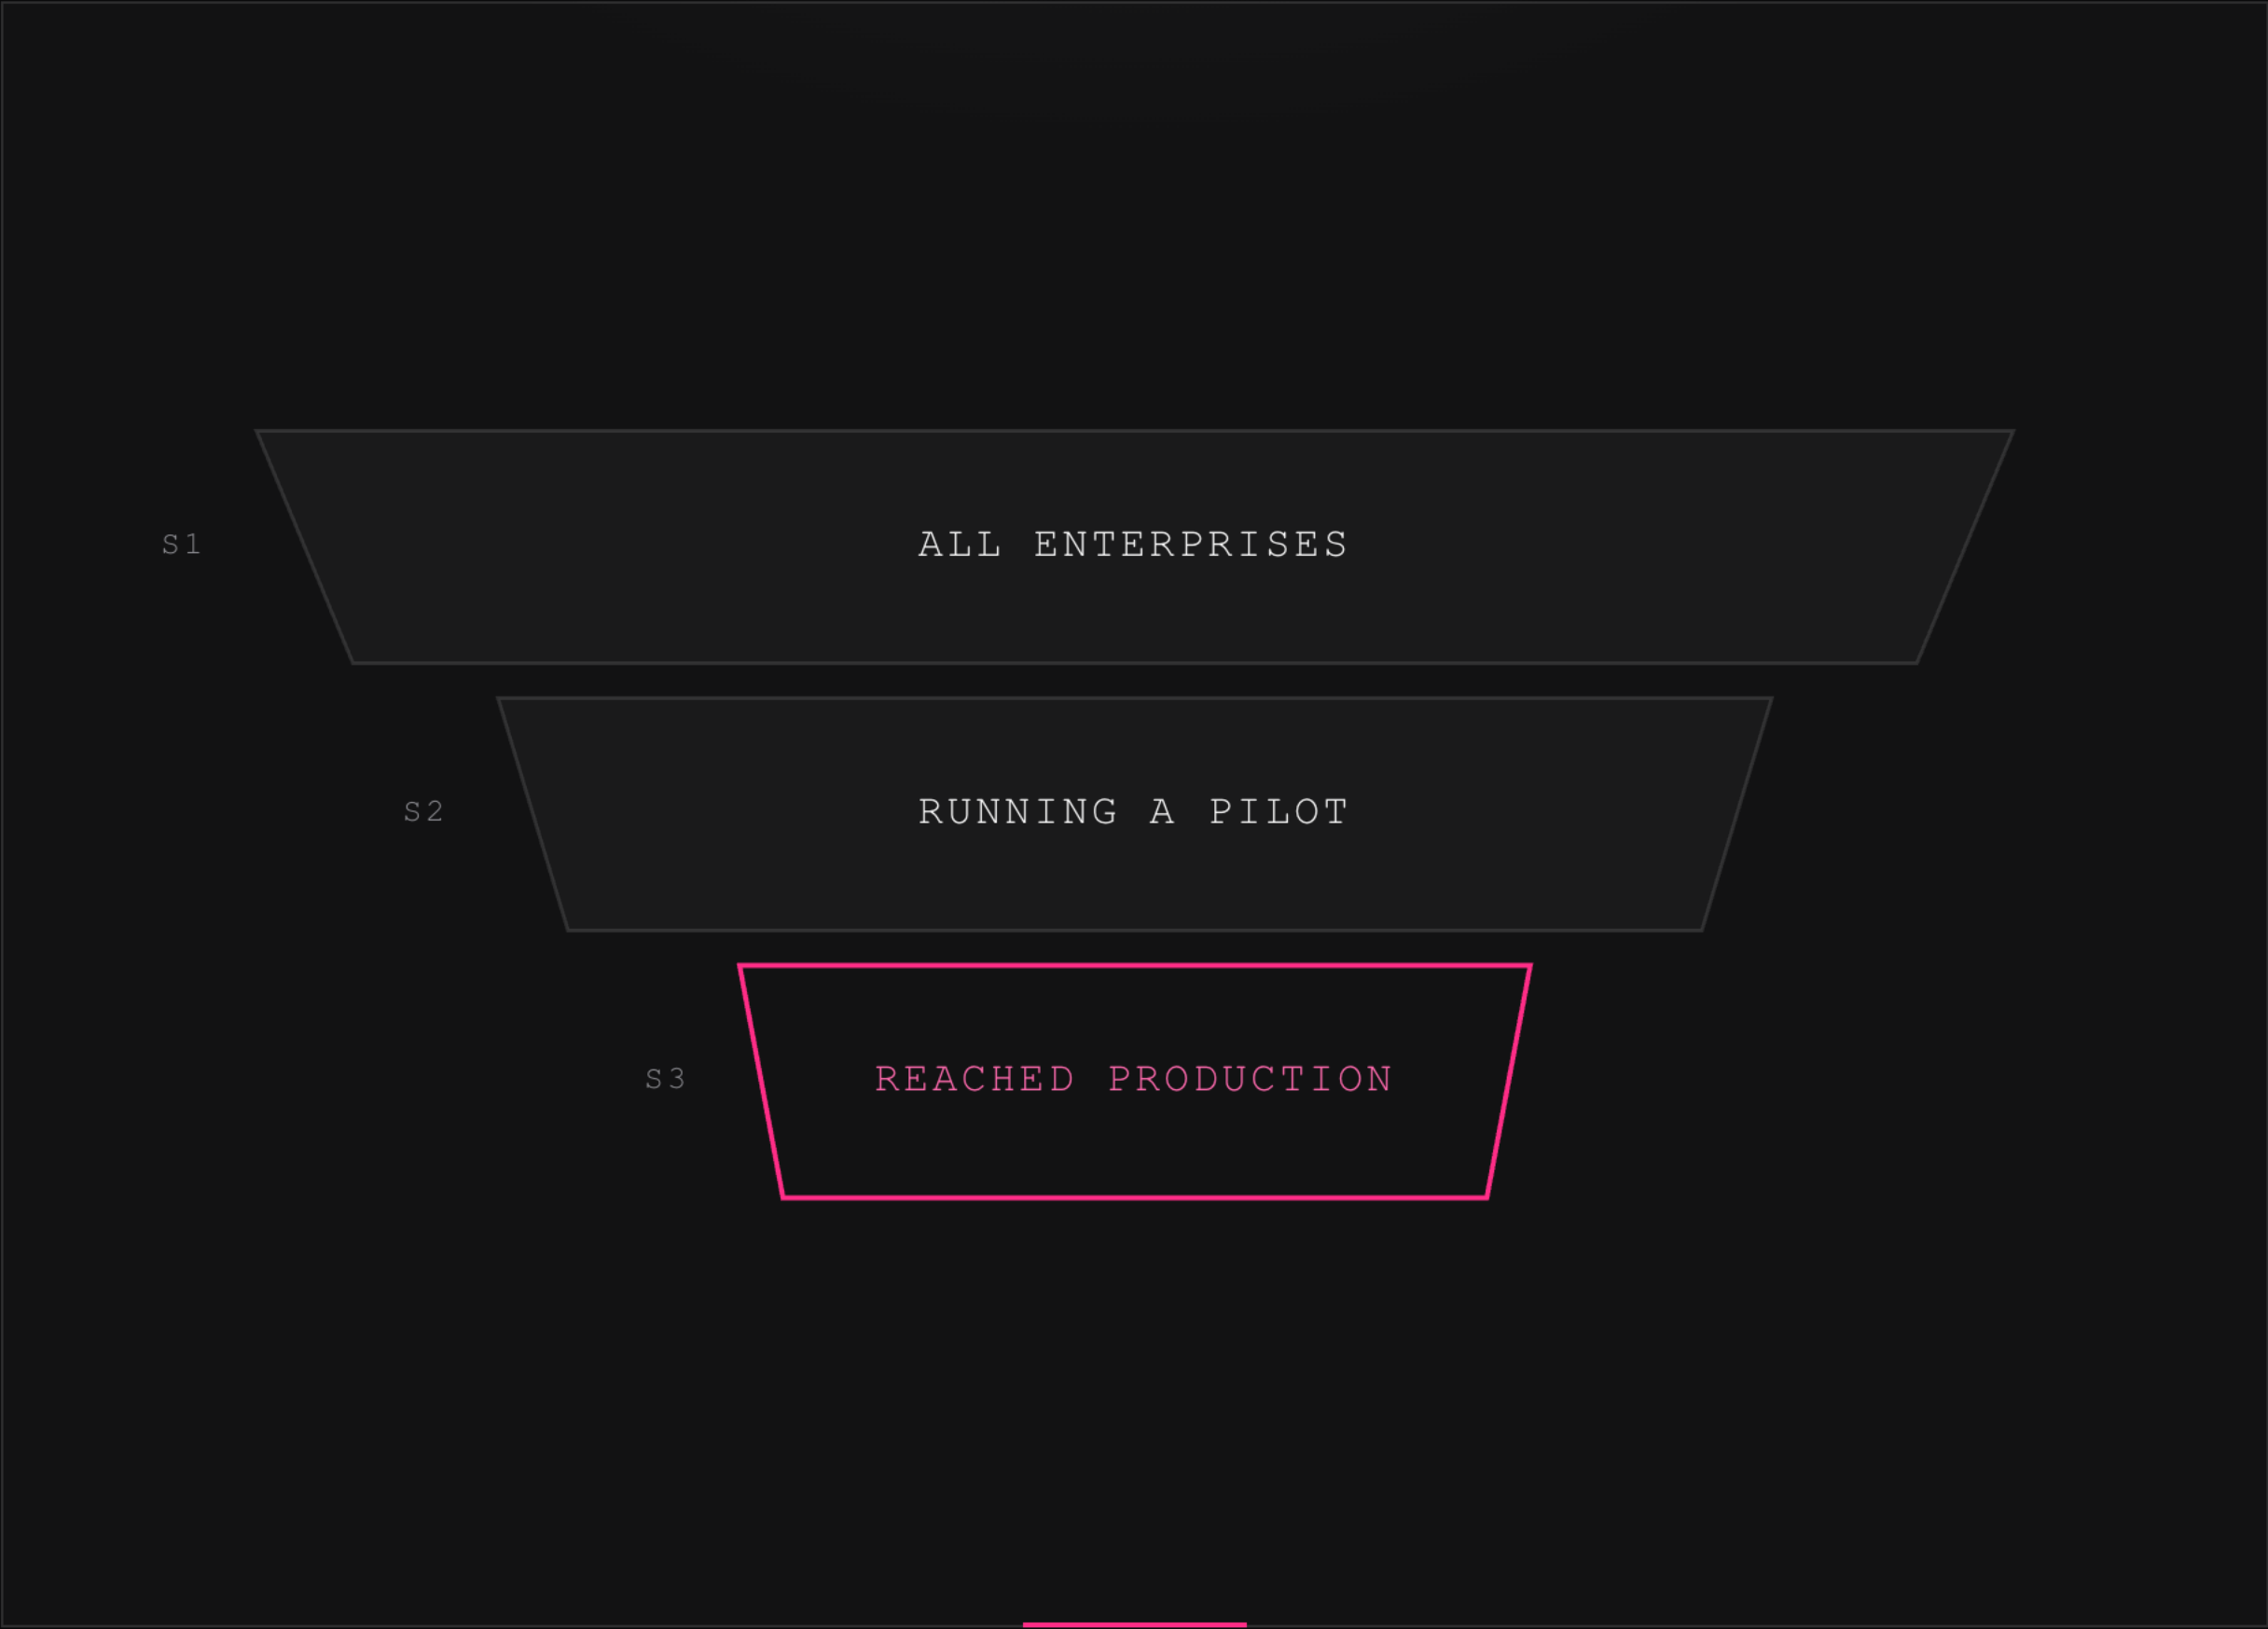

ENTER

● EXHIBIT 02 · ADOPTION REALITY

The Gap Isn't Close. It's A Wall.

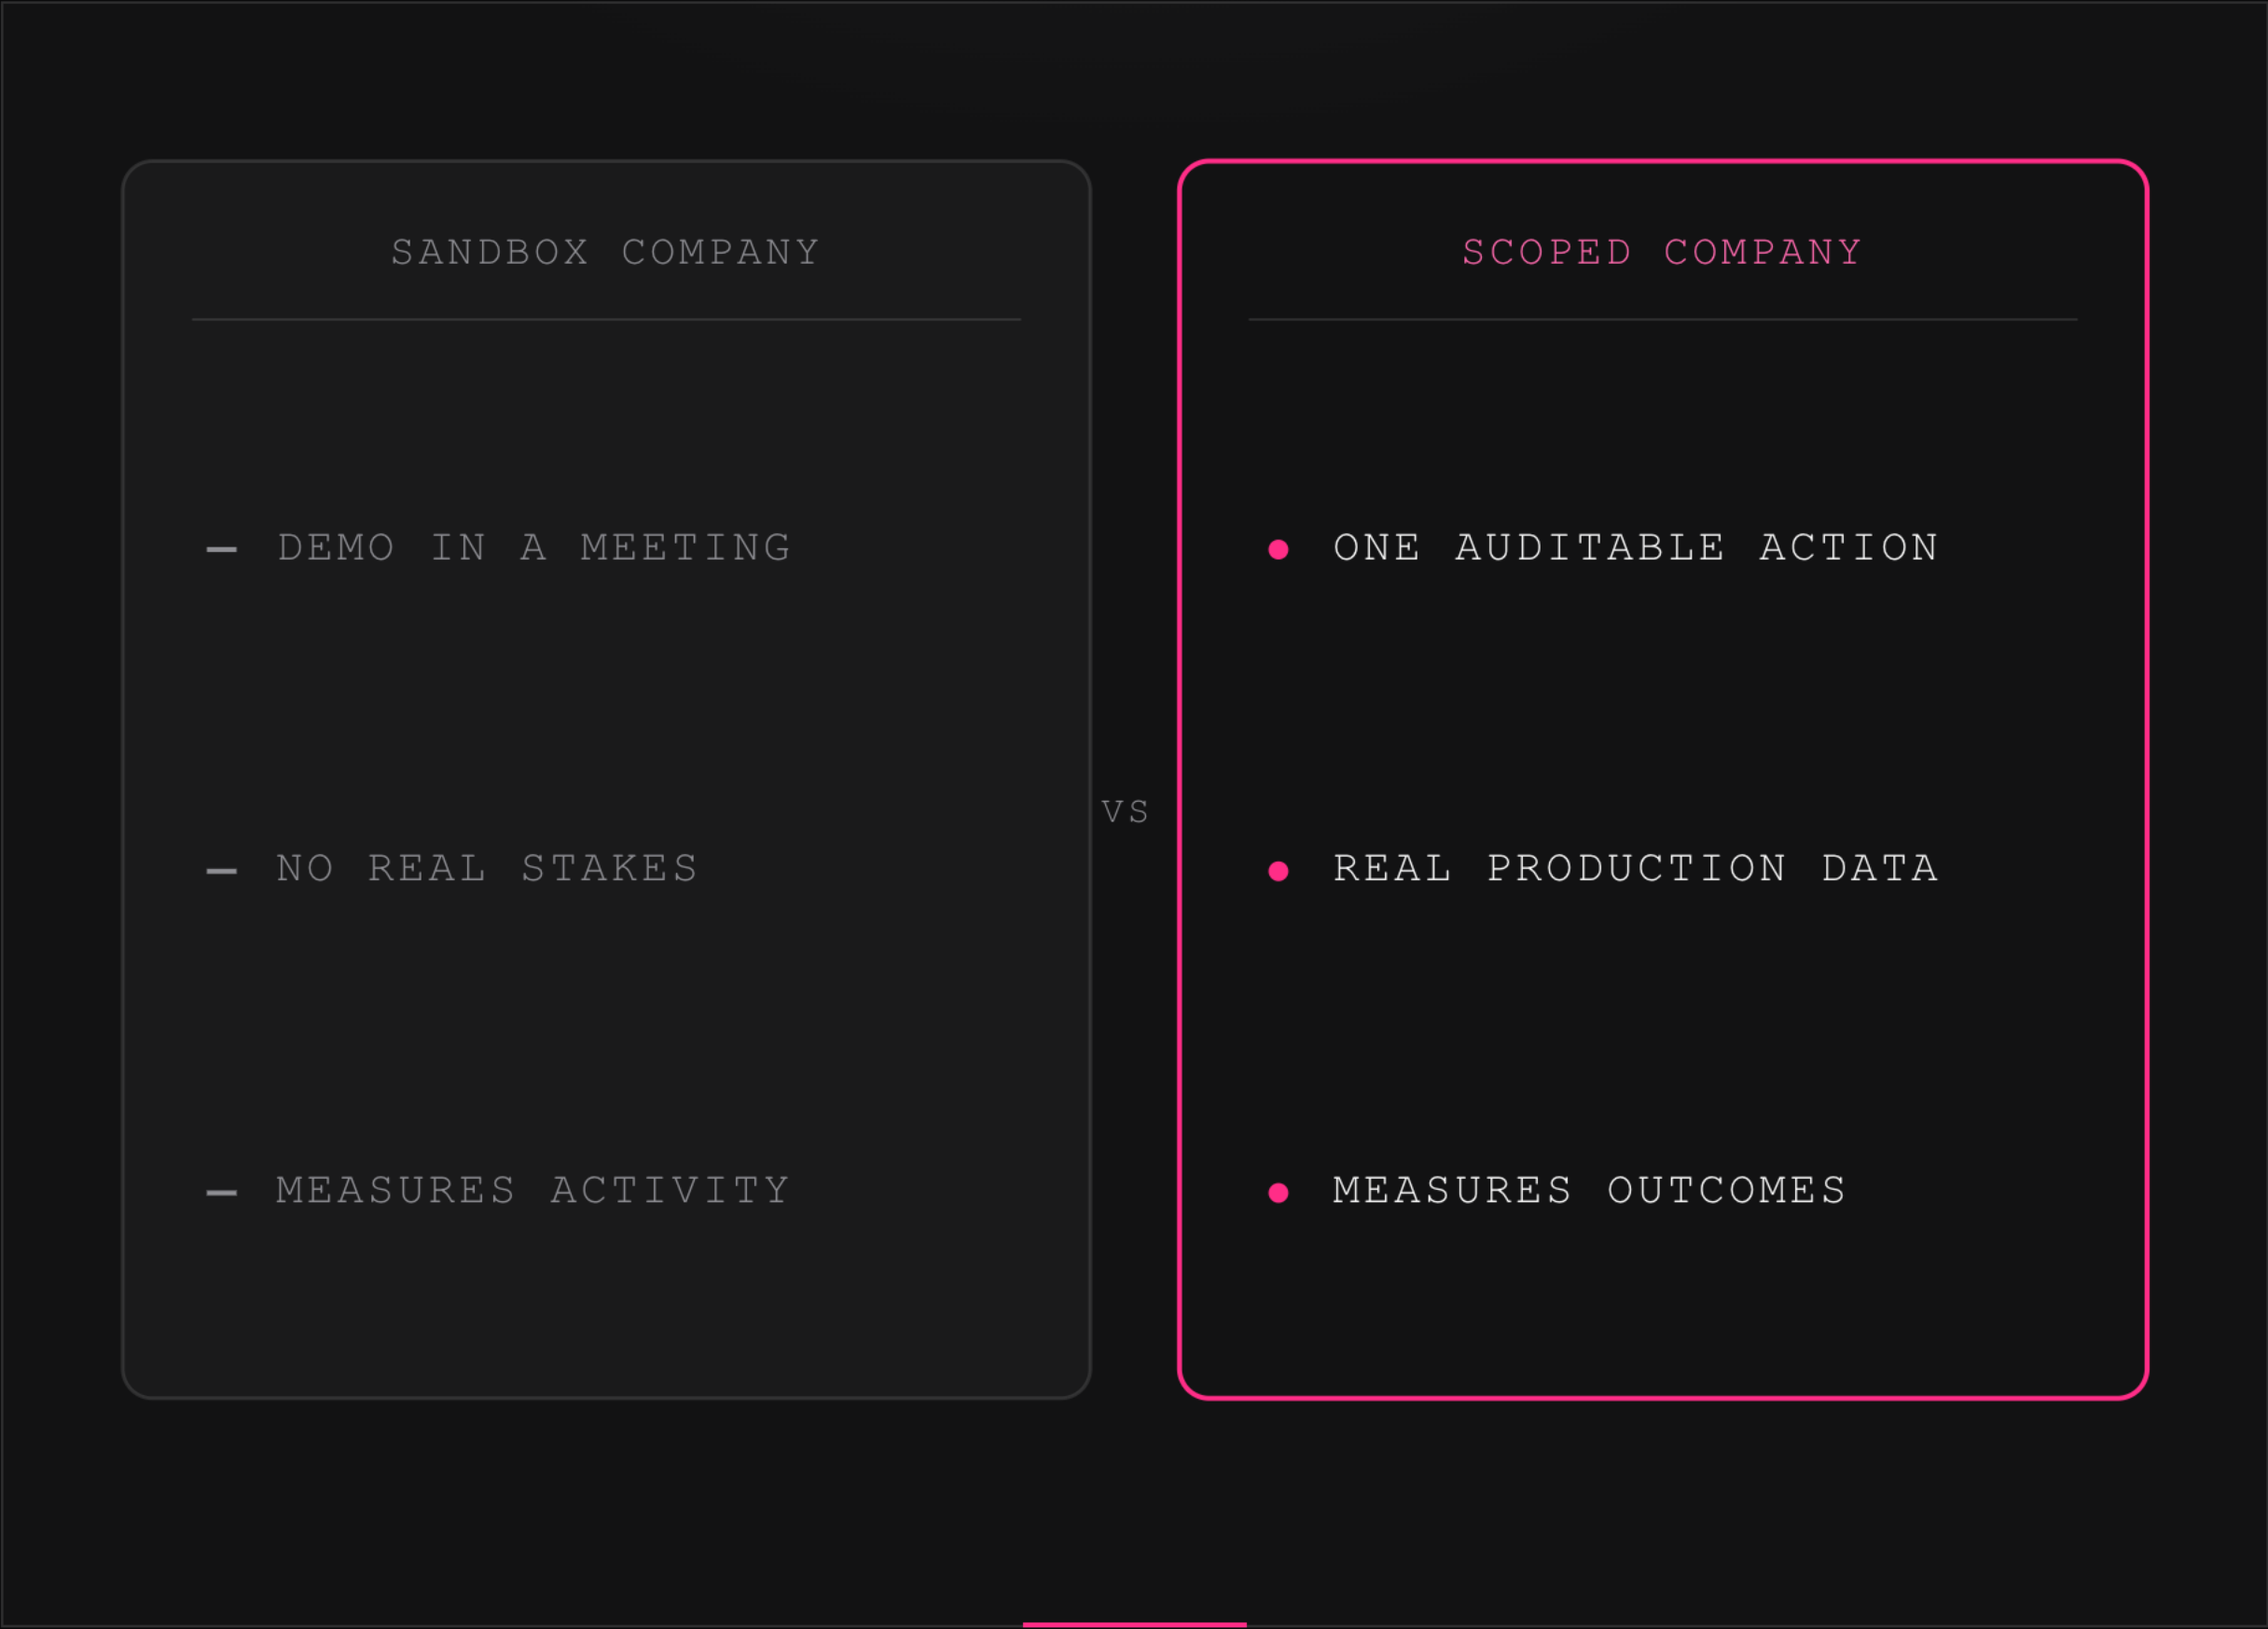

85% of enterprises are piloting an agent. 5% have let one touch production.

● EXHIBIT 03 · PILOT TO TRUST

One Gap, Not A Gradual Curve

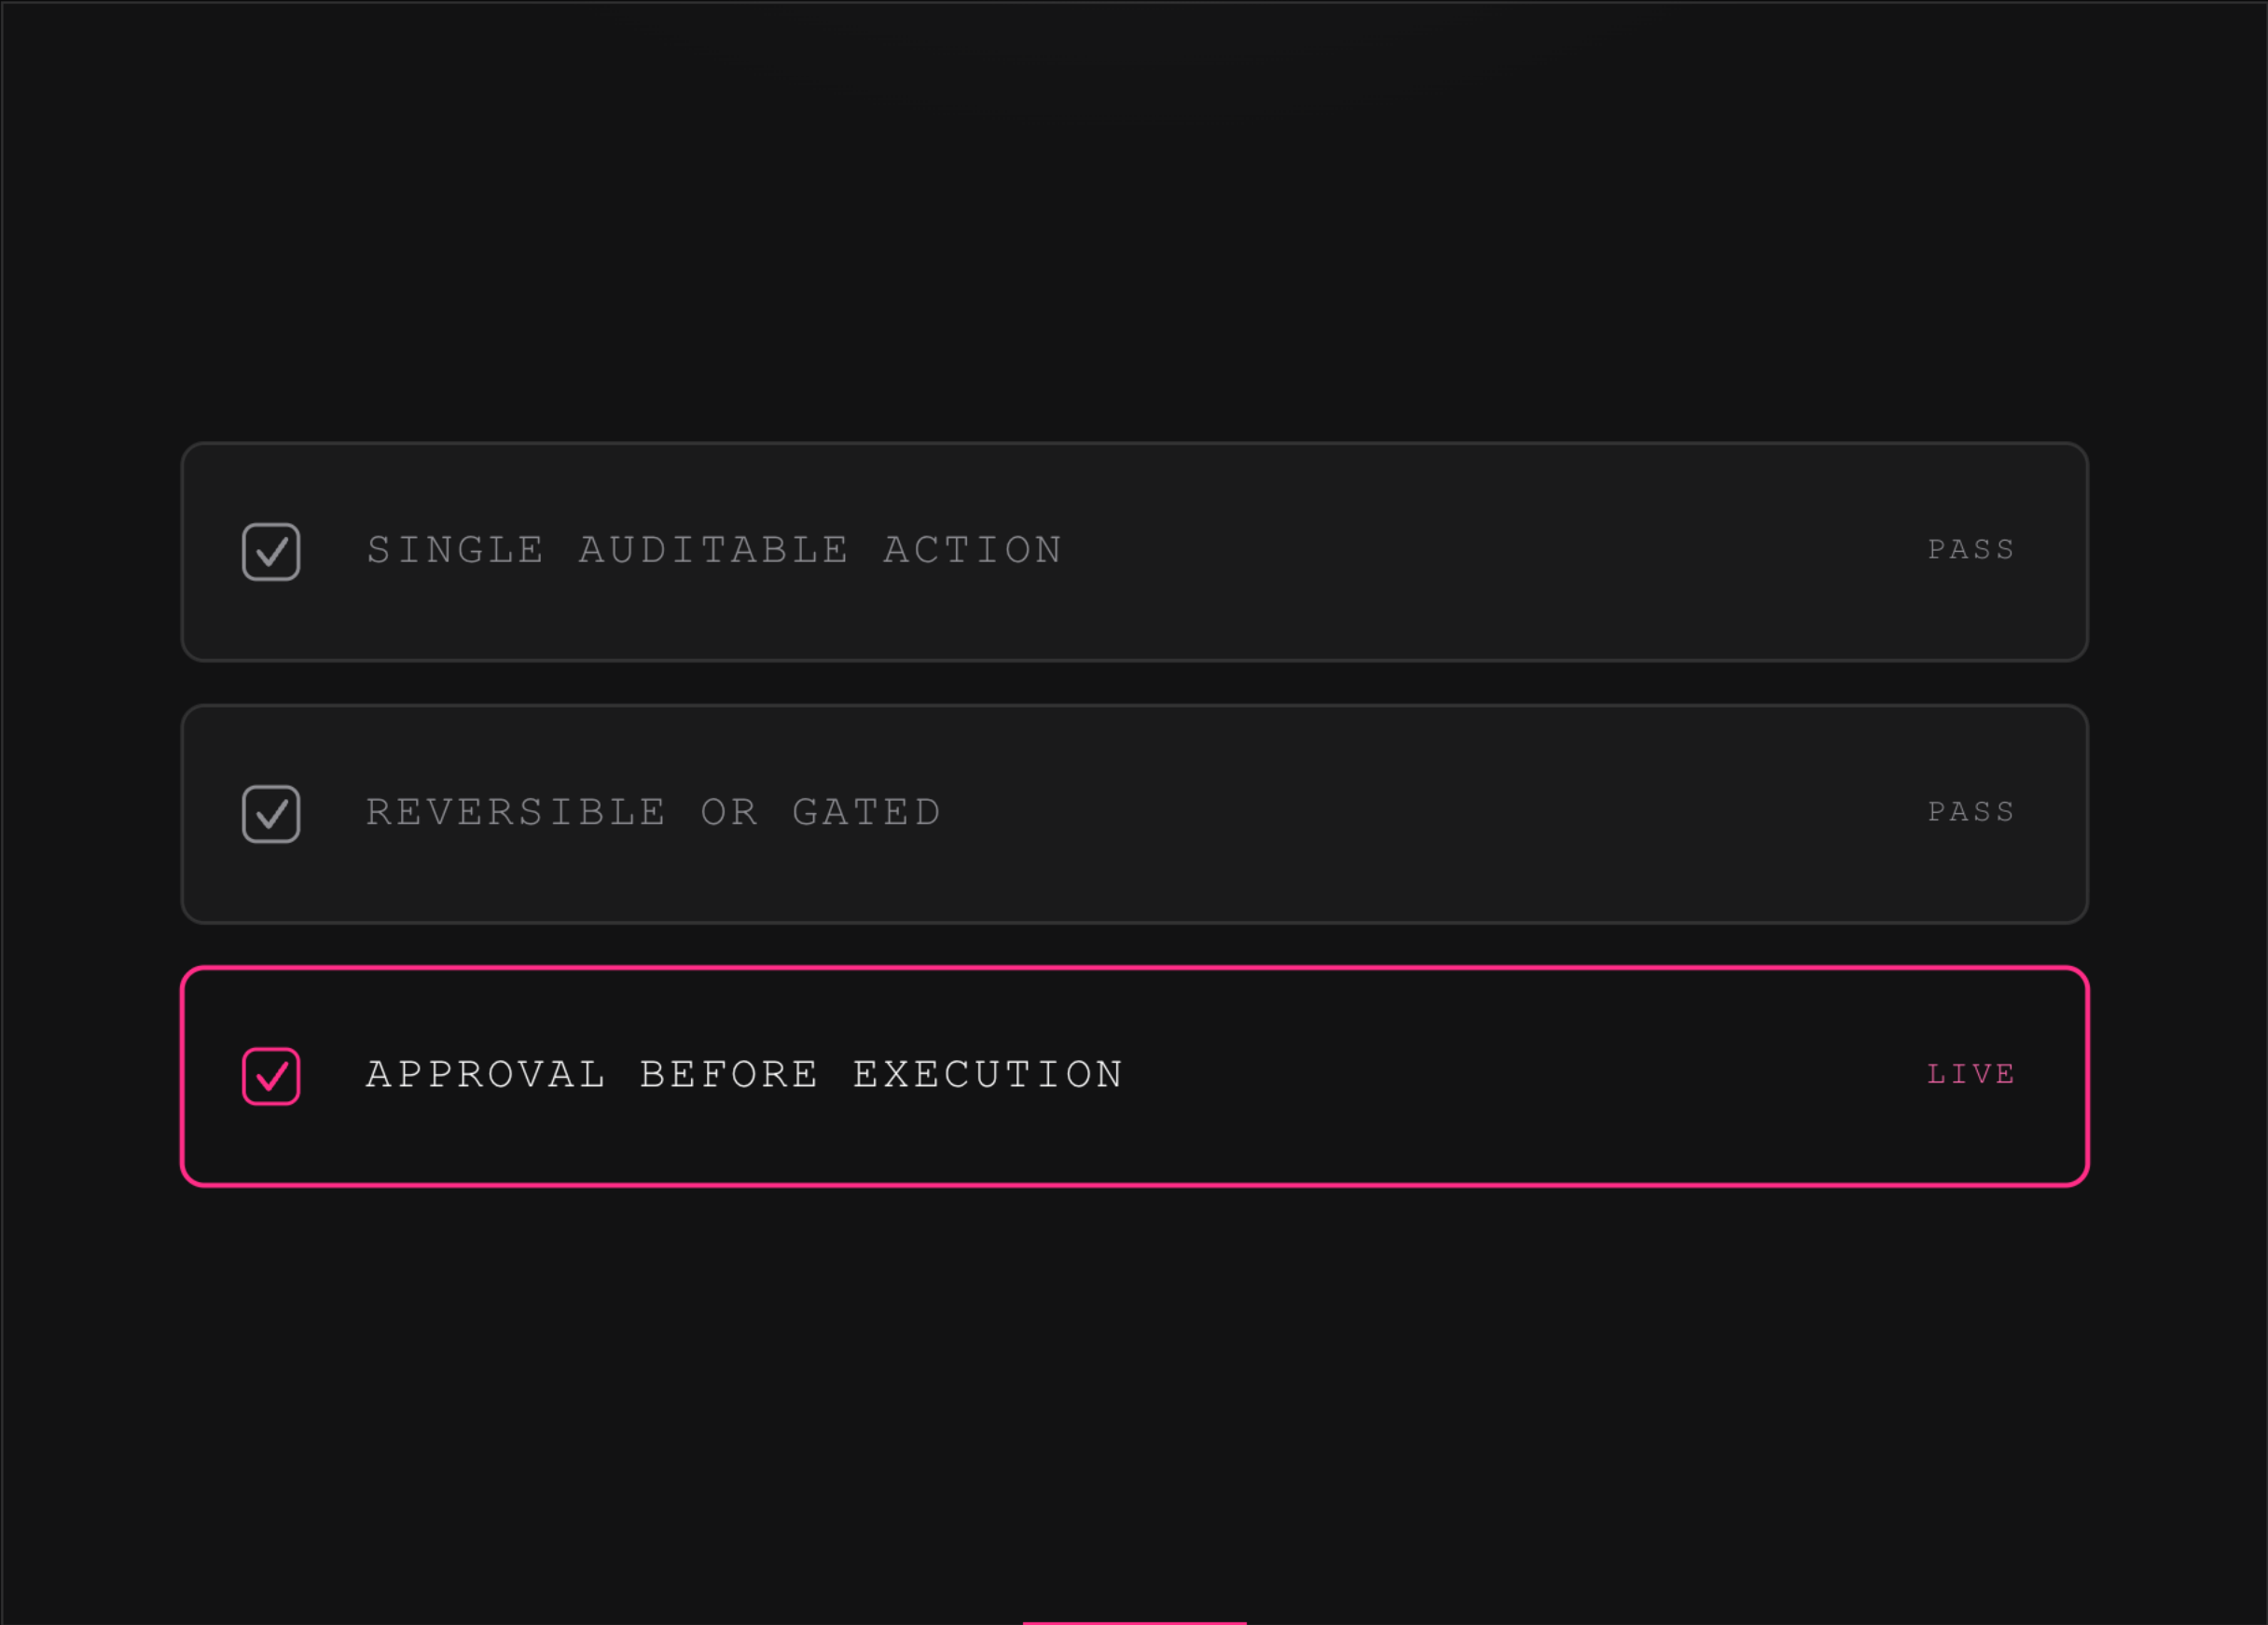

Every enterprise starts even. 85% reach a pilot. Only 5% get further than that.

● EXHIBIT 04 · SANDBOX VS SCOPED

Two Companies, Same AI Budget

One has a demo sitting in a folder. The other scoped one action small enough to trust.

● EXHIBIT 05 · THE SCOPING BAR

What Has To Be True Before Production

This is the bar I hold every deployment to before it touches anything a client can't undo.

Scope For Trust, Not Demos

The five percent that shipped picked a smaller target, not a bigger model.
