

ROI MATH

The Case Study Says 14 FTE. Read Closer.

One headline number, one narrow mechanism underneath it.

SWIPE

02 · the headline

The number on the slide

n8n's case study frames Koralplay's automation as saving the equivalent of 14 full-time employees, 616 hours a week.

FIG. 2 · VERYDIAN

03 · the real scope

What that number actually covers

Not every ticket. Seventy percent of payment support tickets, in one market, of one specific type.

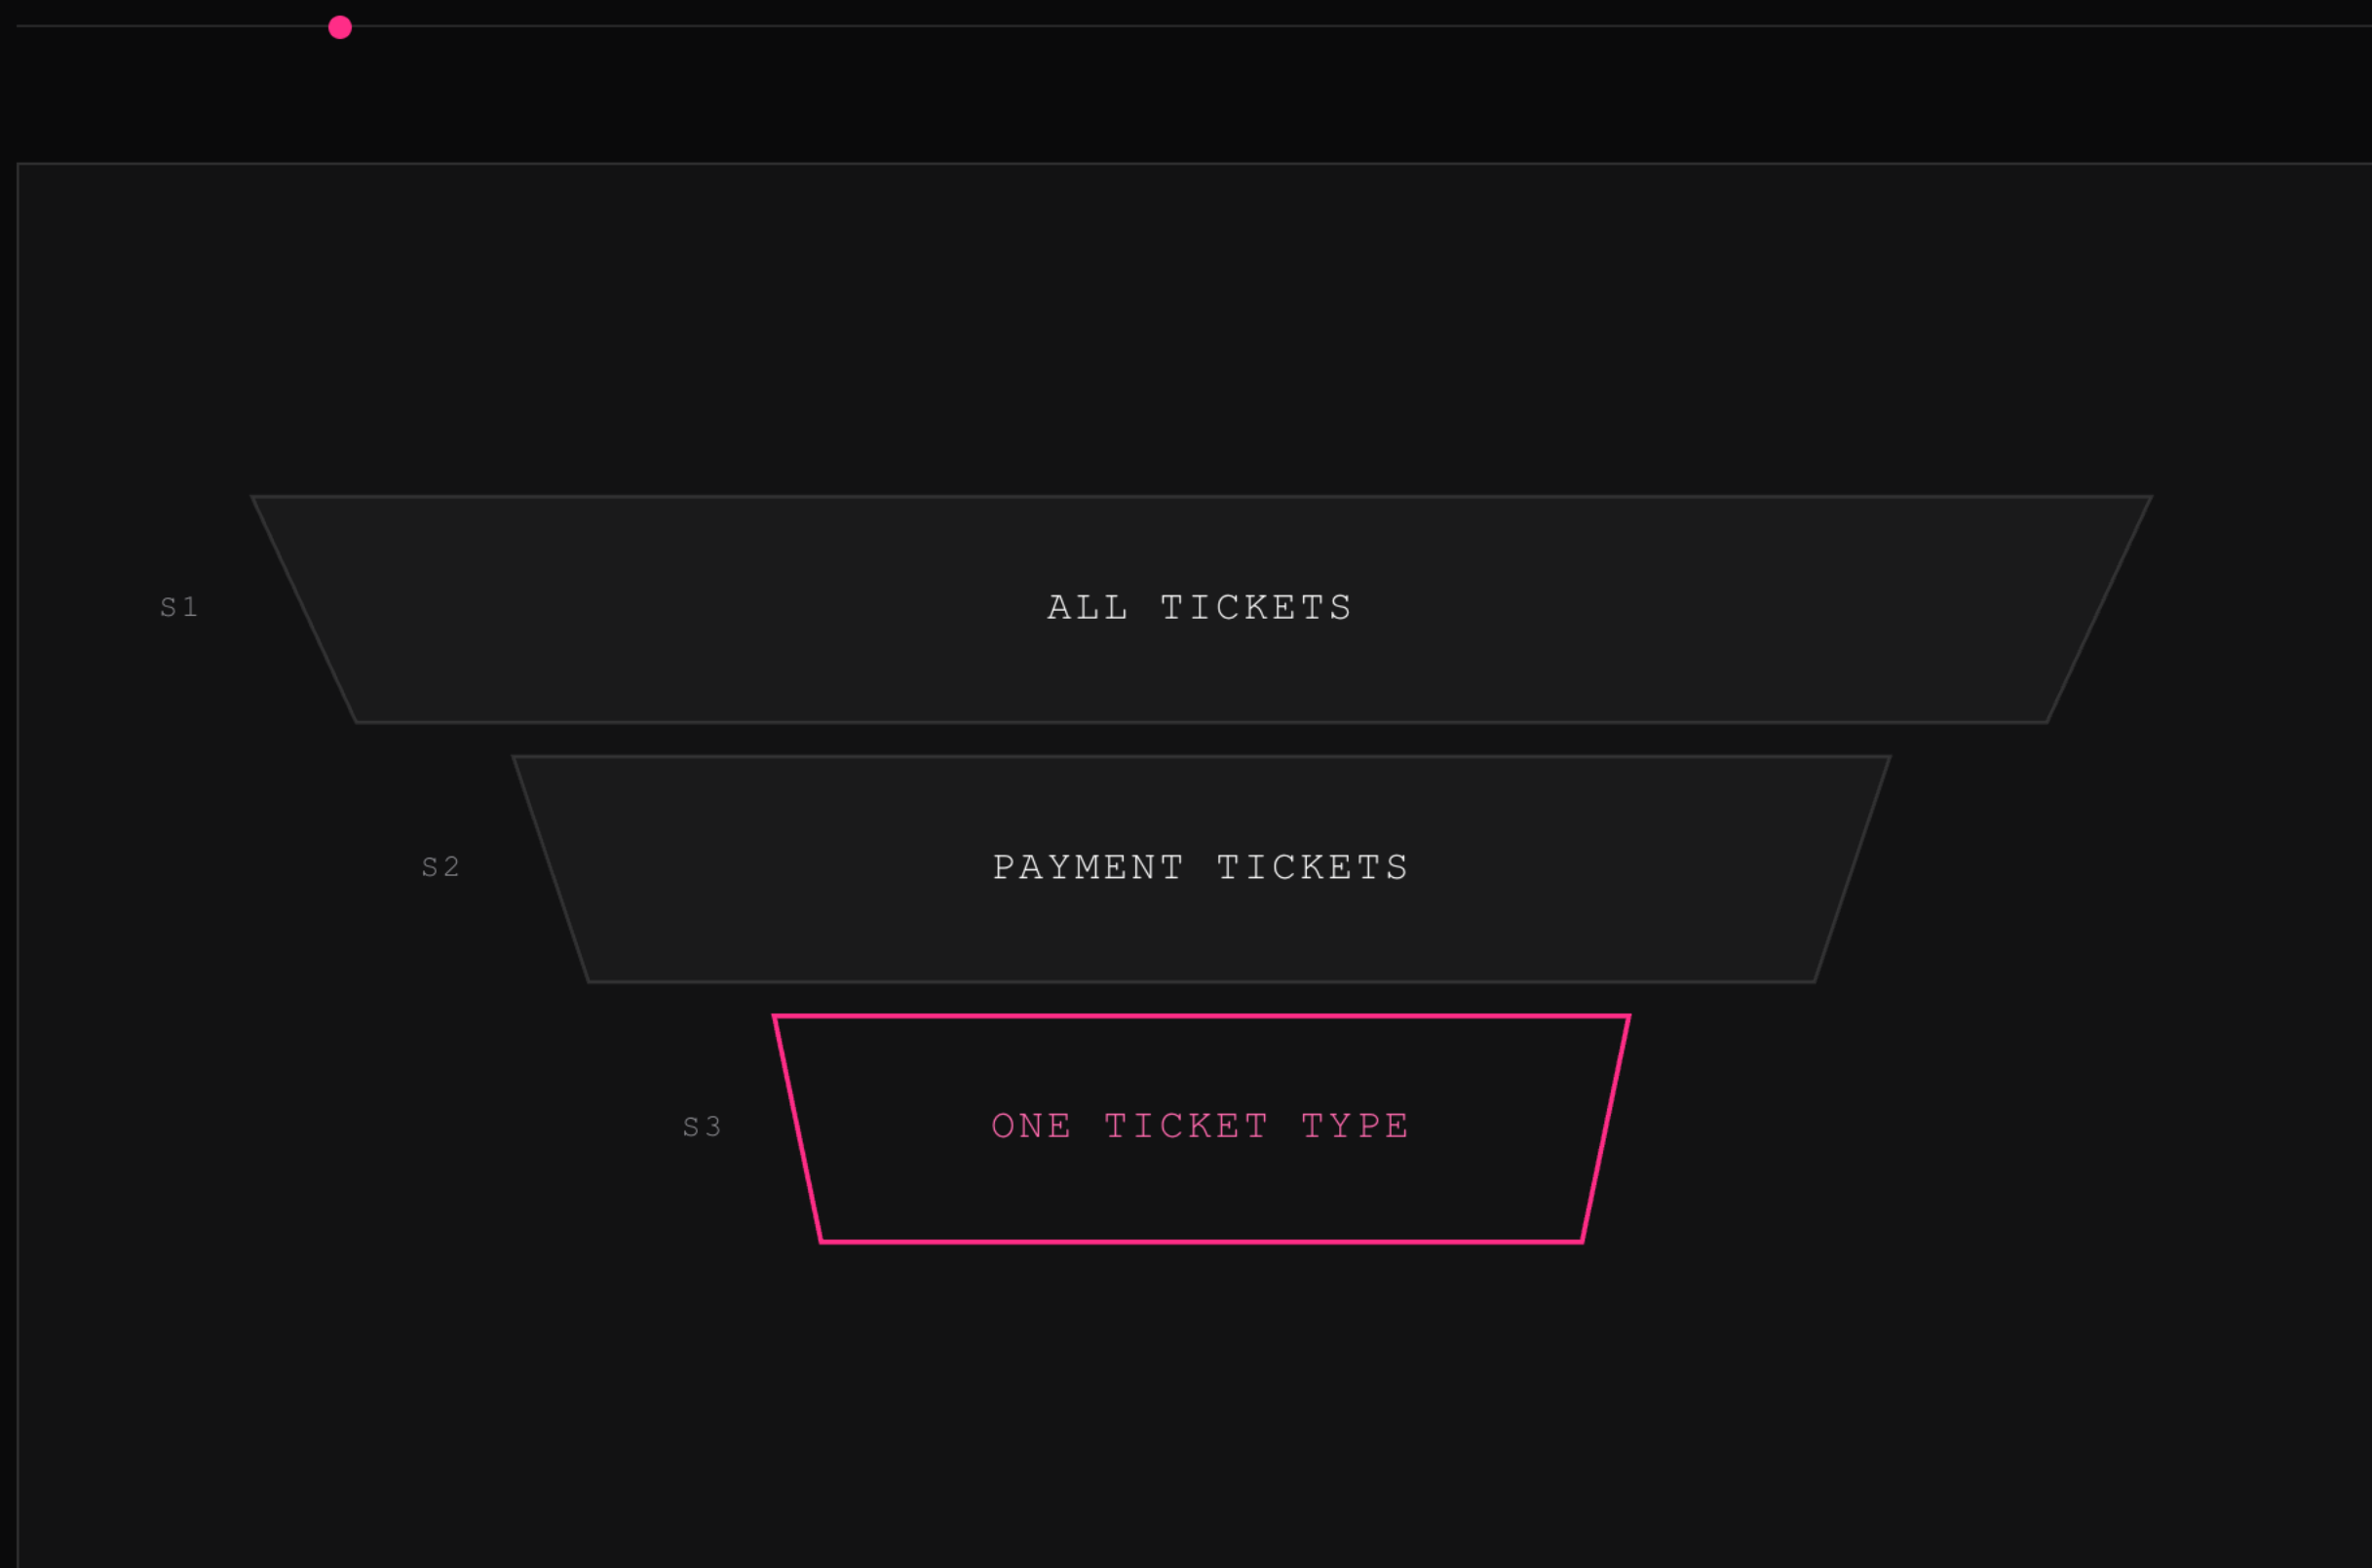

FIG. 3 · VERYDIAN

04 · the mechanism

One workflow, start to finish

Log into the back office, run MFA, check regulatory status, message the customer. One repeatable path, fully automated.

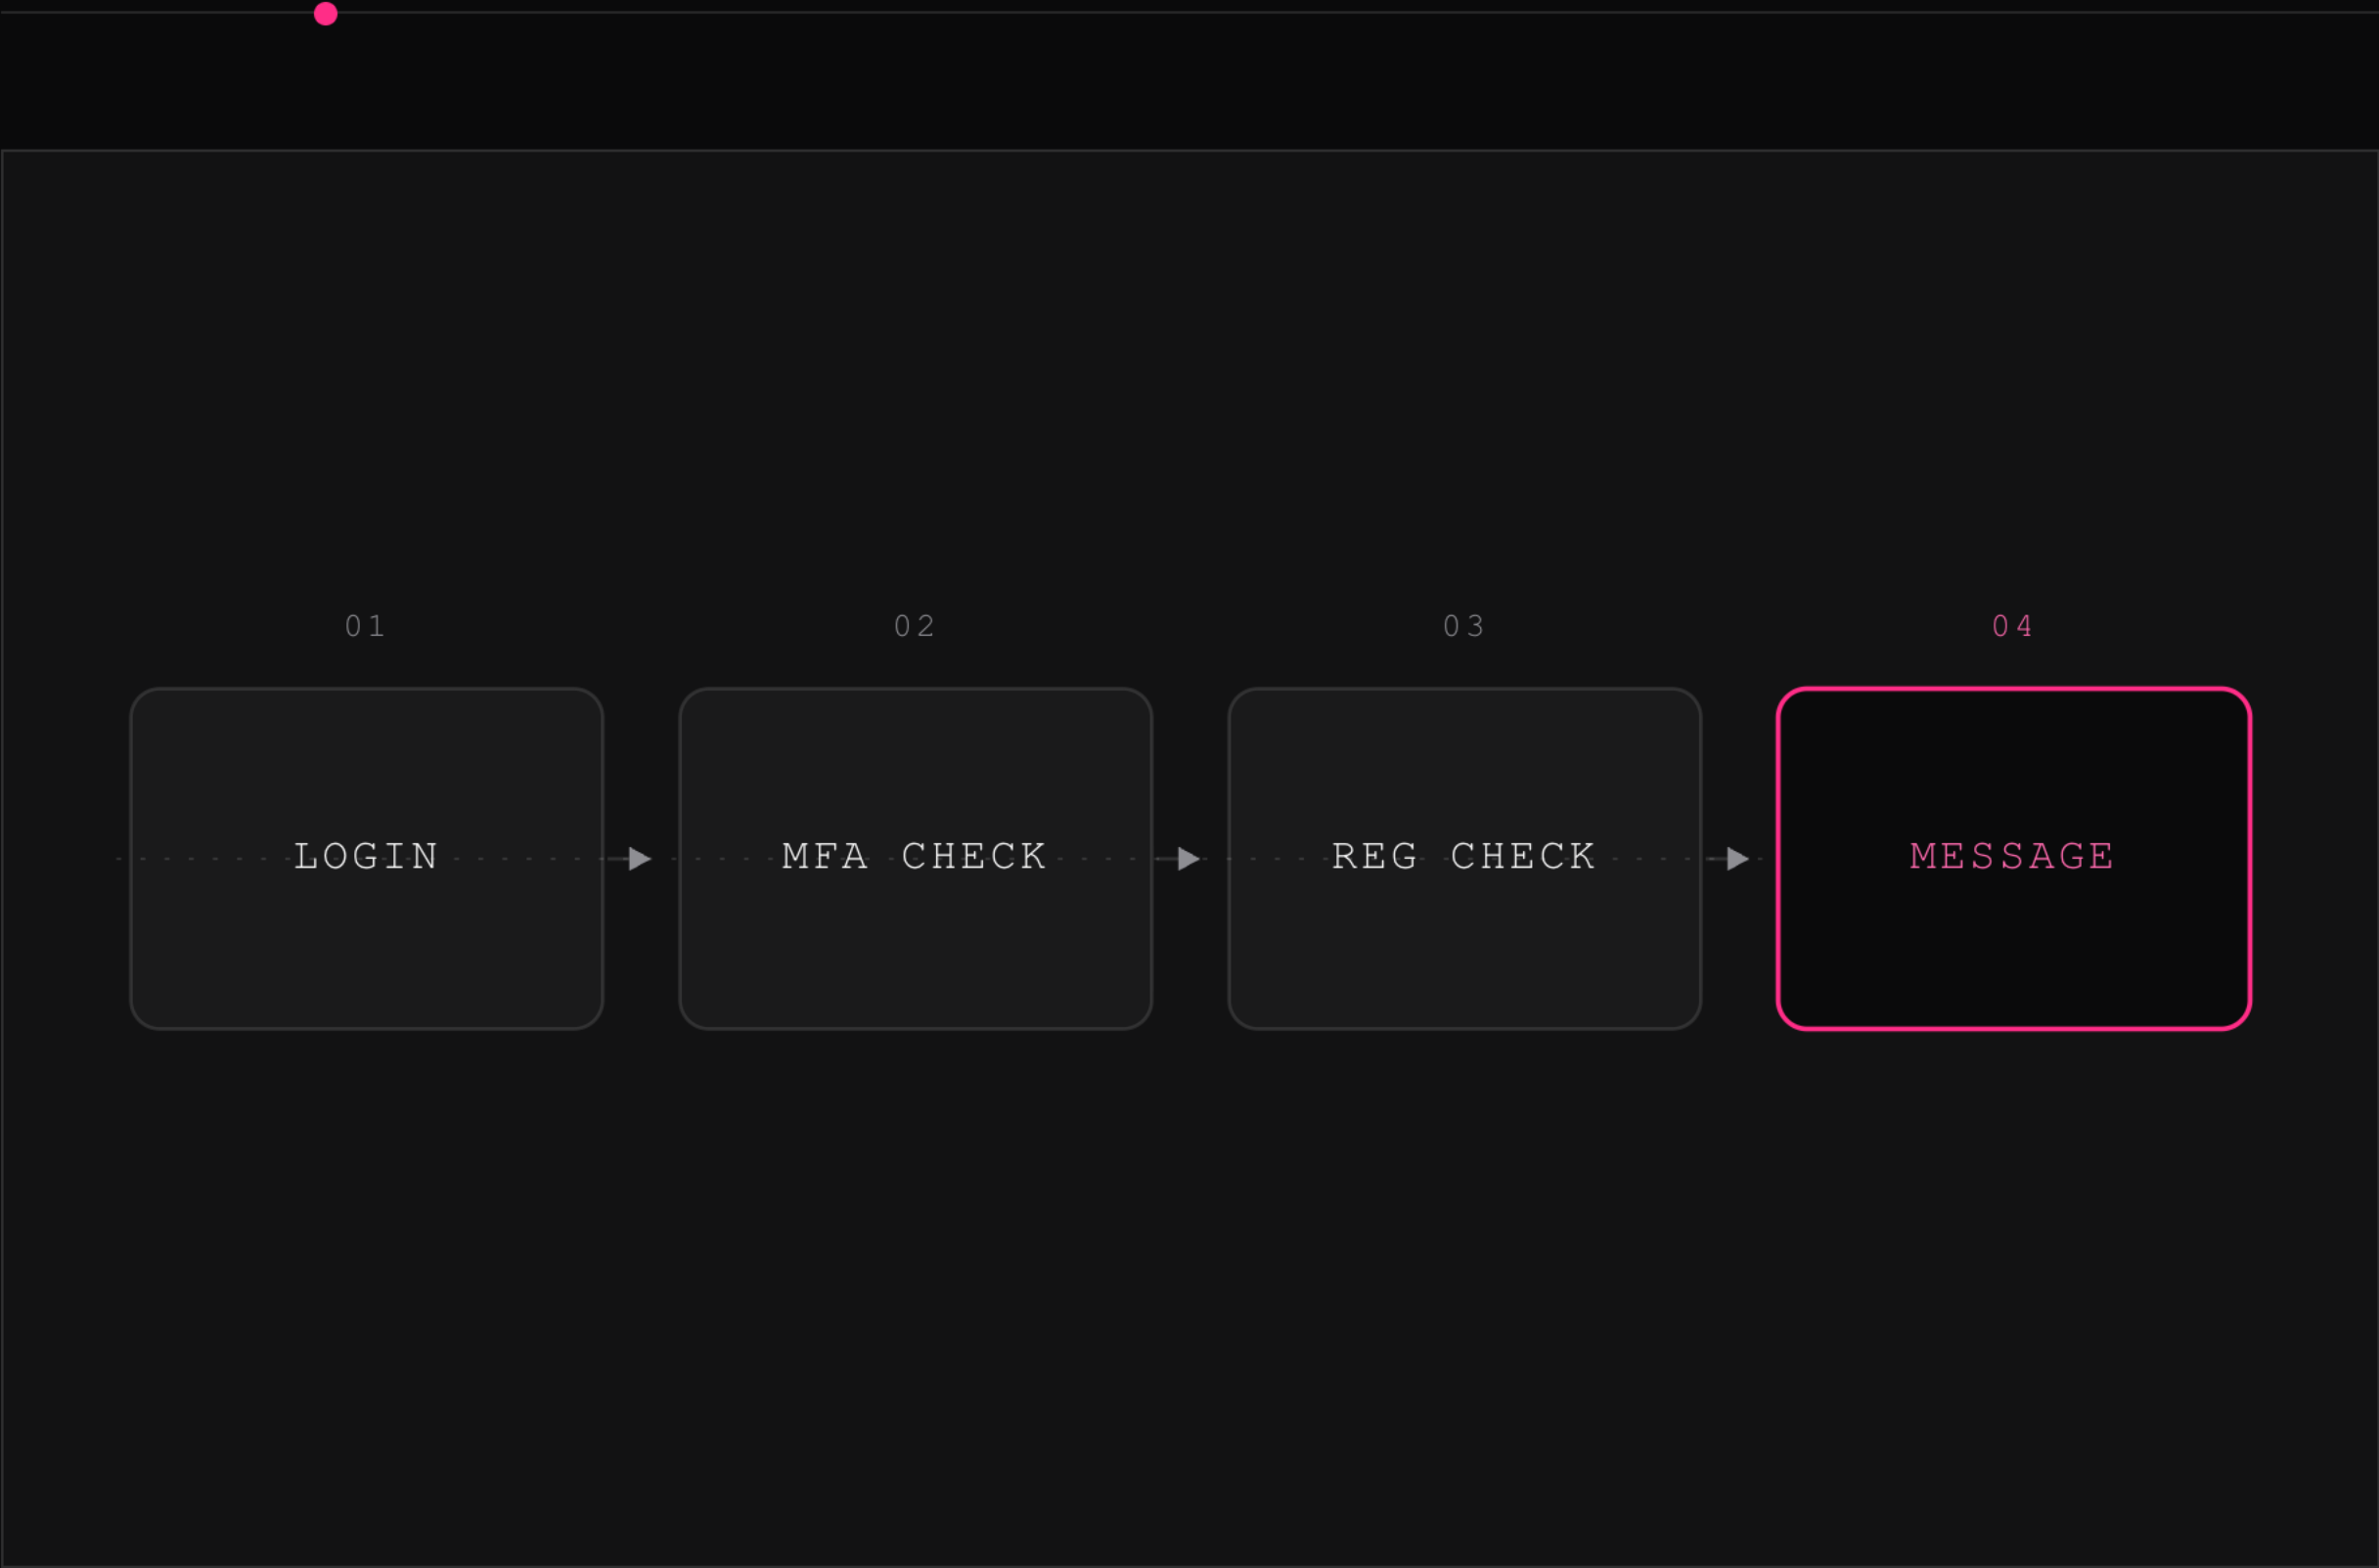

FIG. 4 · VERYDIAN

05 · the honest read

Headline versus what actually happened

The slide says 14 people replaced. The mechanism says one ticket type automated inside one role.

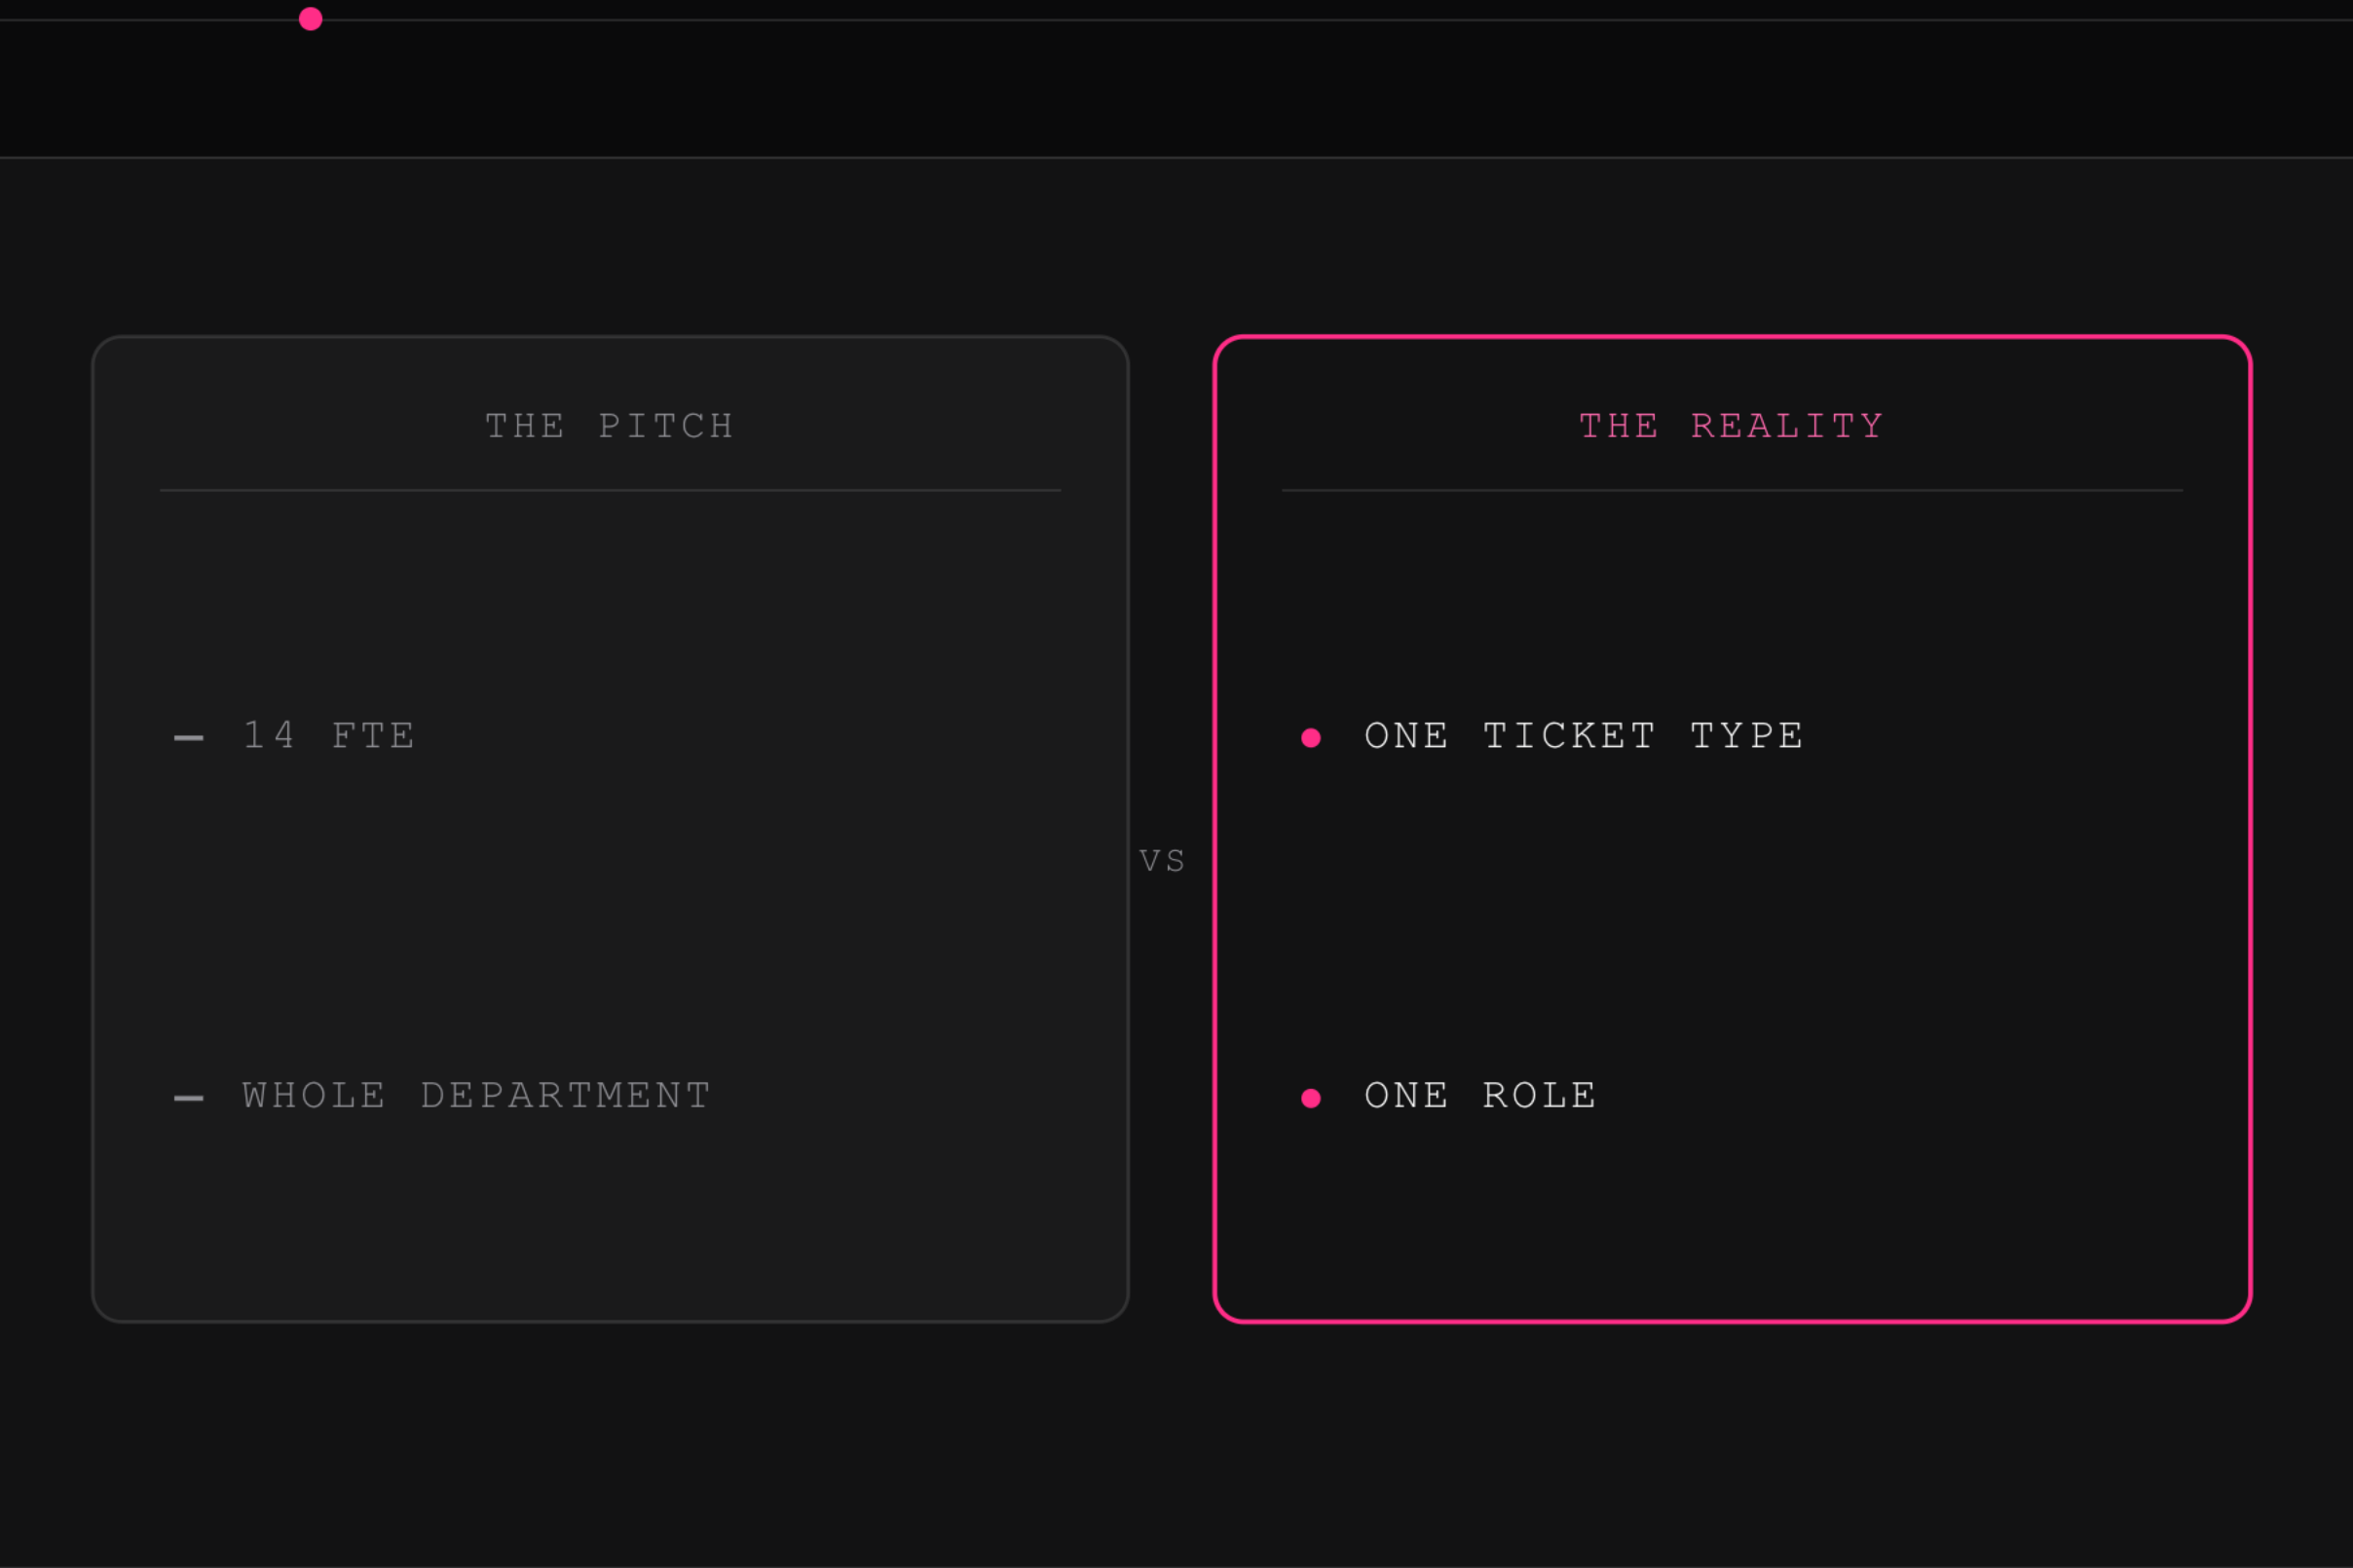

FIG. 5 · VERYDIAN

Ask what one ticket type got automated

Before you believe the rest of the ROI deck.

QUESTION THE NUMBER
