Your Reps Aren't Behind On Effort _

They're behind on signal. Here's what the numbers actually say.

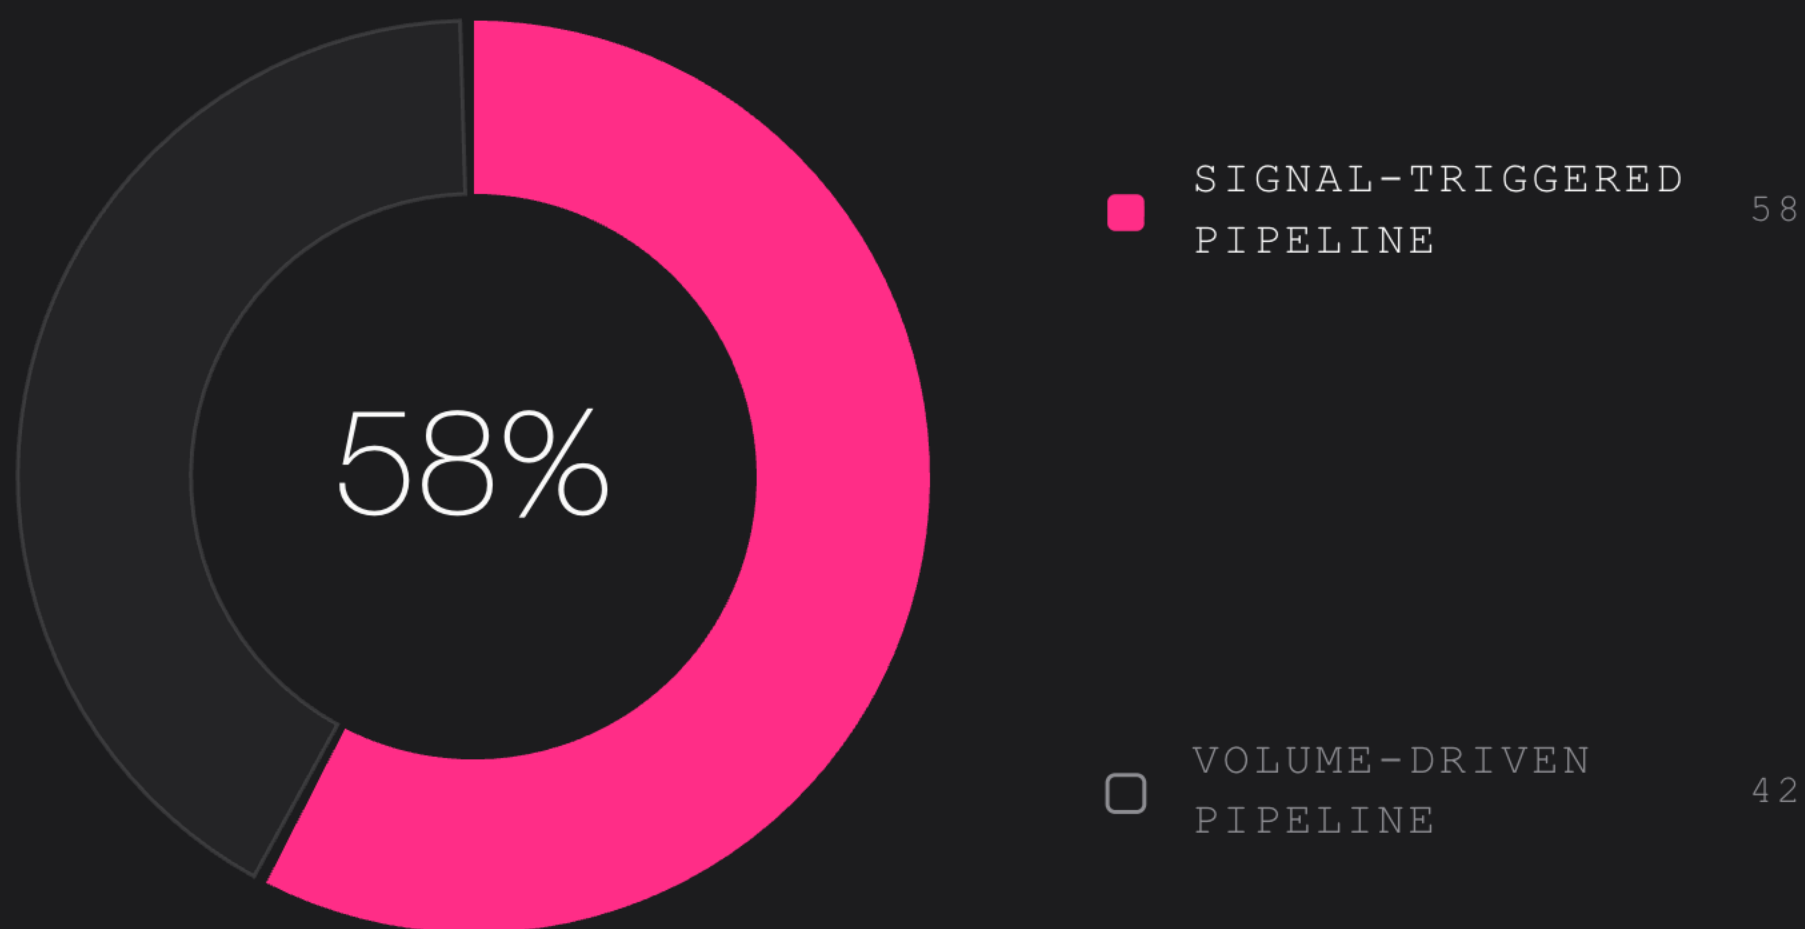

RUN SESSION _____

```
arhem@verydian:~/the split$ step 2
```

Where Pipeline Actually Comes From Now

Teams running agentic GTM generate 40% more pipeline per rep than teams running quota-driven volume alone.

STDOUT

arhem@verydian:~/the_trigger_list\$ step 3

What A Signal Actually Triggers

Job change, funding round, tech stack shift, hiring surge. Each one fires outreach automatically, before a rep opens a spreadsheet.

STDOUT

\$ SIGNAL: JOB_CHANGE DETECTED

\$ SIGNAL: FUNDING_ROUND DETECTED

\$ SIGNAL: HIRING_SURGE DETECTED

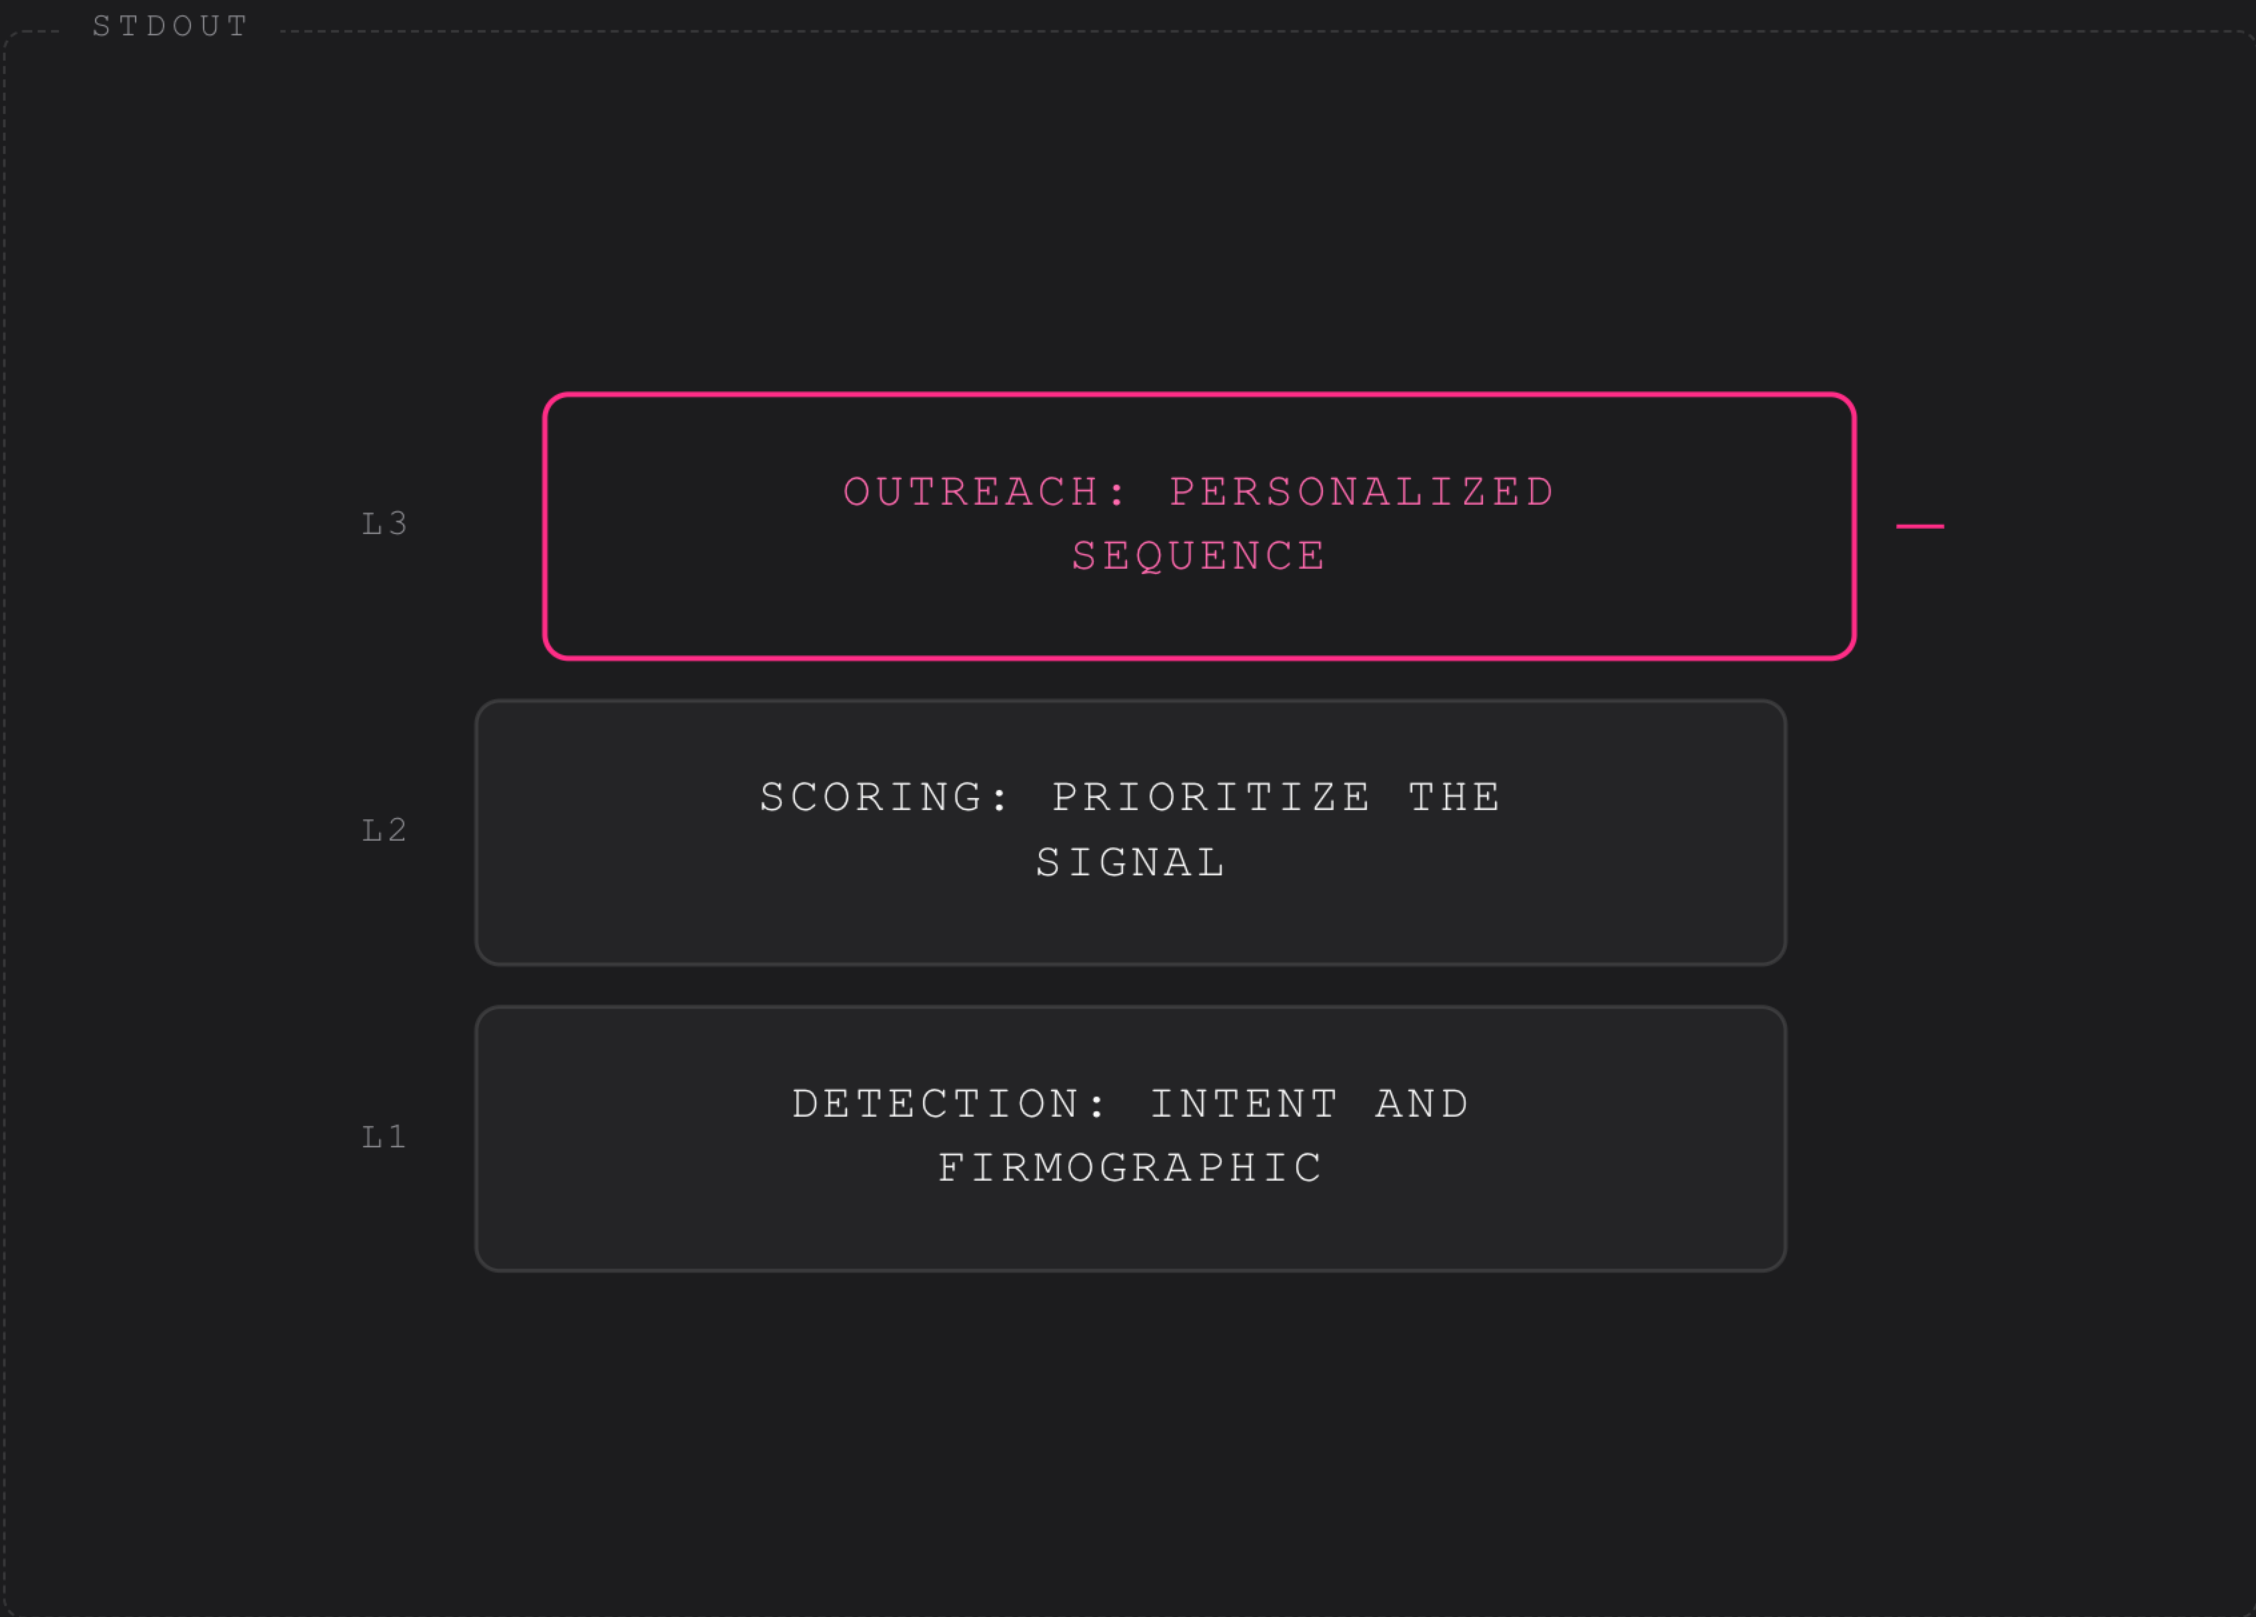

> ACTION: OUTREACH QUEUED

```
arhem@verydian:~/the layers$ step 4
```

The System Underneath Signal-Triggered Outreach

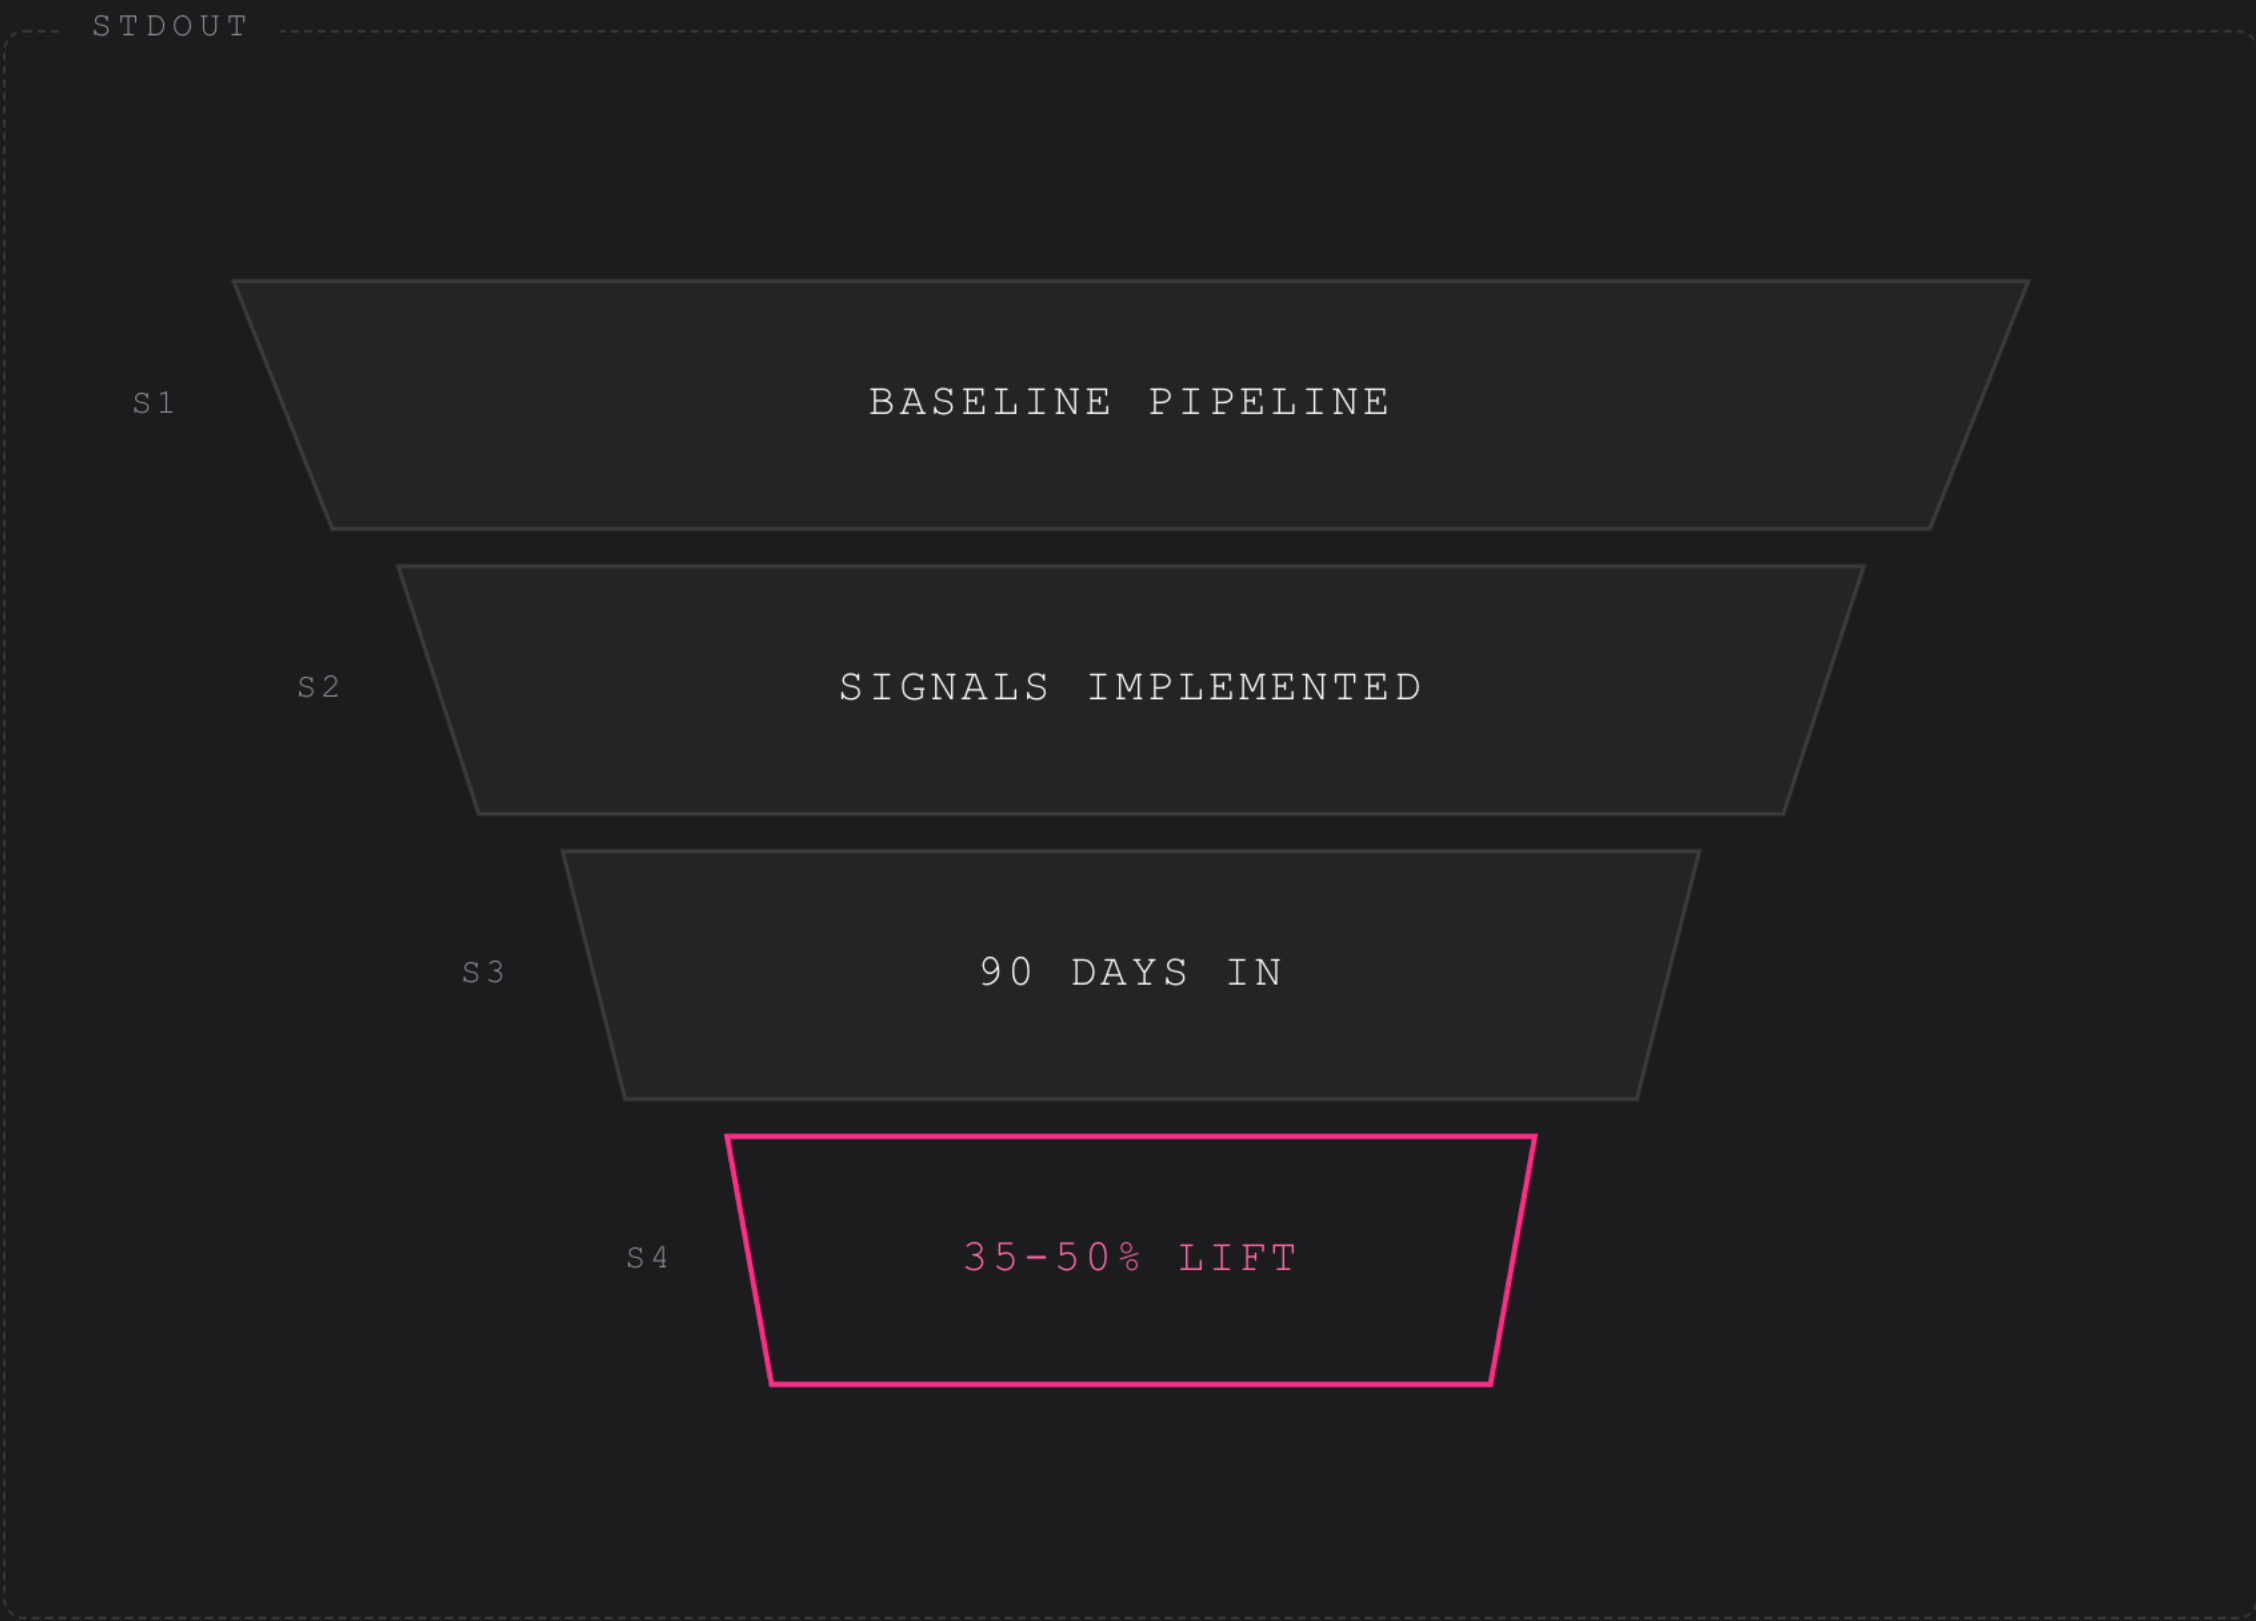

Signal detection on the bottom. Scoring in the middle. Sequenced outreach on top, personalized off what triggered it.

arhem@verydian:~/the timeline\$ step 5

Small Teams See The Lift Fastest

Teams under five reps see 35 to 50% pipeline increases within 90 days of switching to signal triggers.

Stop Rewarding Volume, Start Rewarding Signal

I'll show you what triggers to build first.
