

THE REAL SKILL

An Agent Gets a Proposal to 80% Fast

| The other 20% is the whole job, and it doesn't automate.

THE SHIFT

Two weeks became 25 minutes

Field Aerospace: what took three or four people two weeks now hits an 80% solution in 25 minutes.

I used to build these from a blank page

At Cloud 24 Digital, every GTM proposal started from scratch. Scope, pricing, timeline, fine print, all by hand.

THE JUDGMENT LAYER

The 20% that still needs a human hand

Pricing that fits the client's real scale, a dependency only experience catches, and tone calibrated to the buyer.

THE NEW STANDARD

What I check before anything ships

Does the pricing hold at their scale, did the draft miss a dependency they'd catch immediately, and does the tone match this buyer.
