

Every client had
the same
problem after
leads arrived.

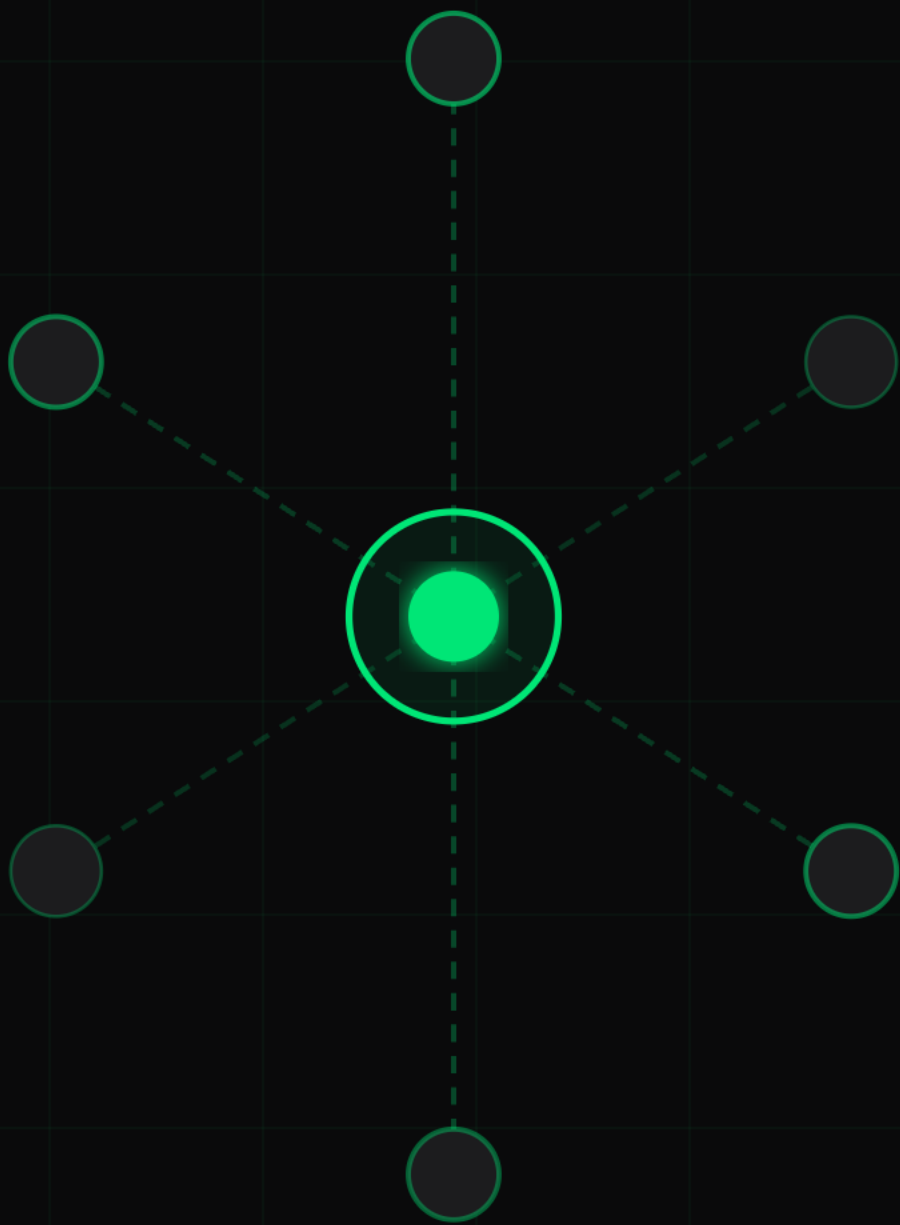

How two years of GTM work became Verydian AI

02

Cloud 24 Digital: GTM systems for SaaS founders.

Two years. Every stage from 5-person teams to Series B. The pipeline wasn't broken. The machinery around it was.

SYS.NETWORK

03

The pattern showed up everywhere.

Follow-ups depended on memory. CRM was a mess. Ops teams were the duct tape. No one had time to fix it.

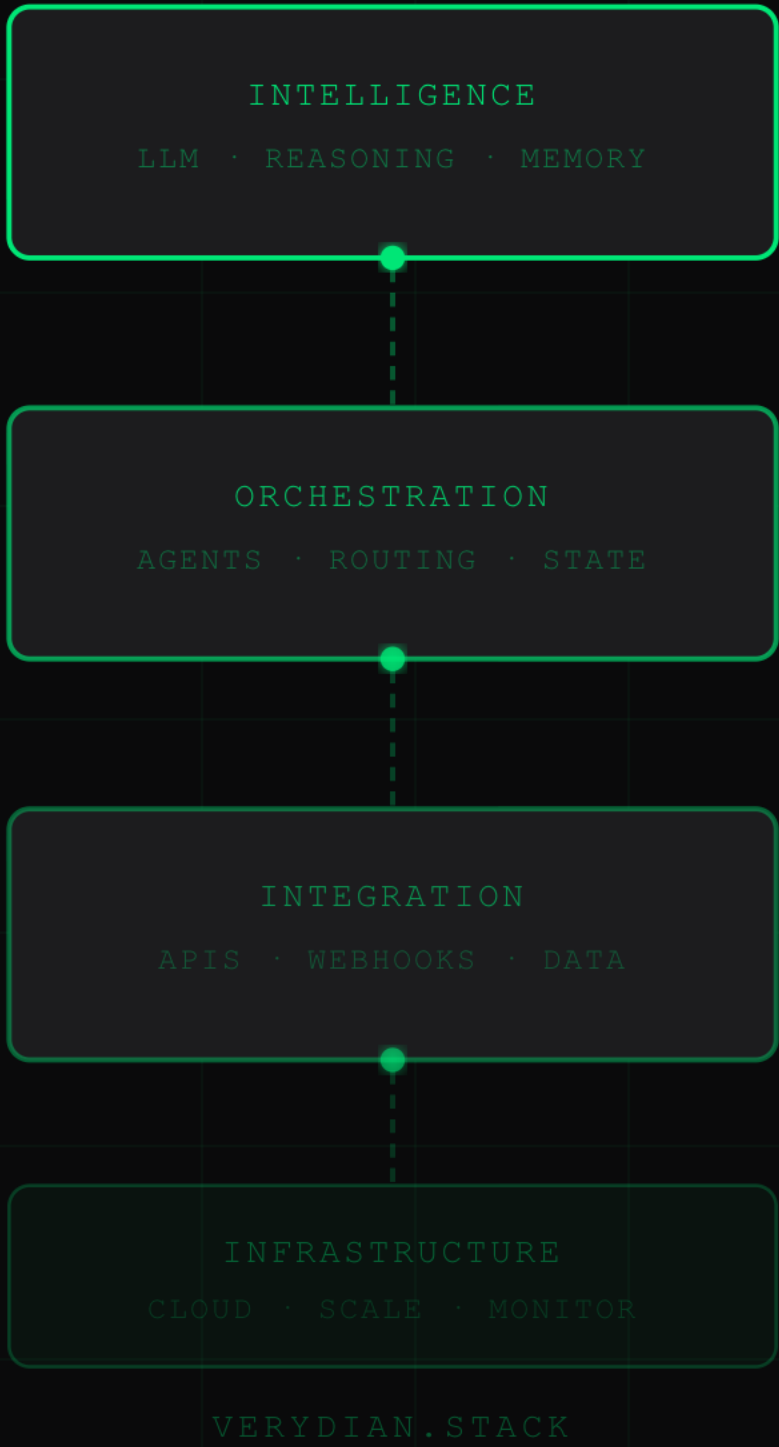

04 ·

Then the tools
changed what was
possible.

Claude Code, n8n, modern agent frameworks.
Not chat interfaces. Autonomous processes that
actually execute.

PIPELINE

05 ·

GTM was the first use case. Not the whole thesis.

Every repeatable process with a clear decision tree is a candidate for autonomous execution. That's the bigger idea.
