

AGENT GOVERNANCE

Everyone's Adding Agents. Nobody's Tracking Them.

IBM projects over 1,600 agents per enterprise by 2027. Right now, most companies can't name the ones already live.

2027 FORECAST

1,661 Agents By 2027 Is A Forecast

IBM's own projection, not a count of what's running today. The real gap is in the agents already live.

EXHIBIT 02

VERYDIAN

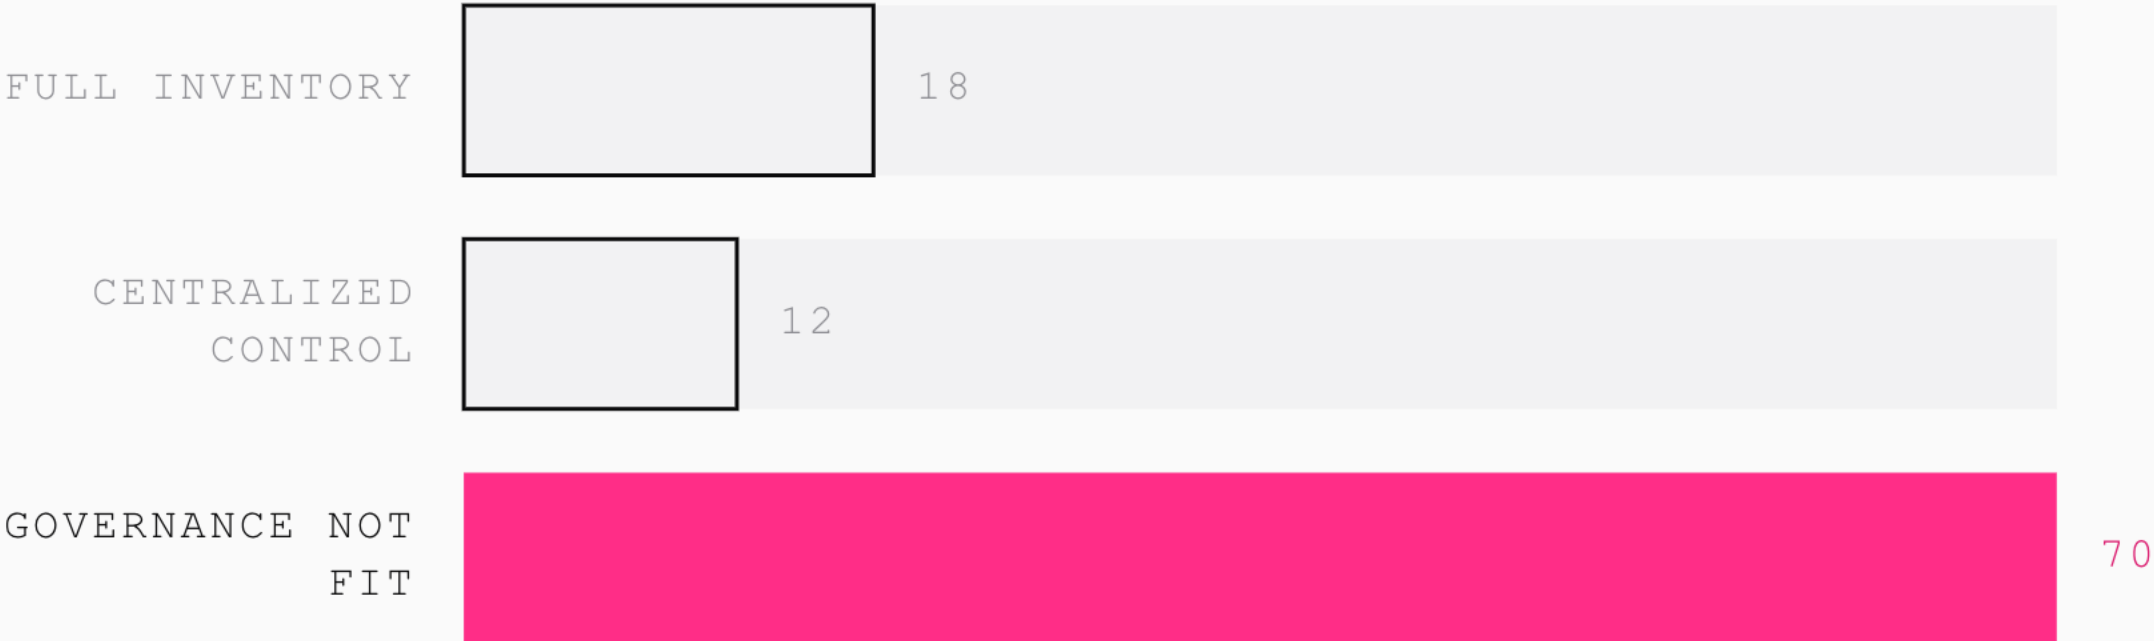

CURRENT STATE

The Governance Numbers Are Worse Than The Forecast

Only 18% keep a full inventory. Only 12% manage sprawl centrally. 70% say their governance isn't fit for purpose.

Know Every Agent You're Running

Sprawl isn't a scale problem. It's a discipline problem.
