

88% of AI Pilots Never Ship

The problem isn't the AI

02

The Numbers from March 2026

78% of enterprises running agent pilots. 14% reached sustained production. That's an 88% failure rate across the industry, not a few bad projects.

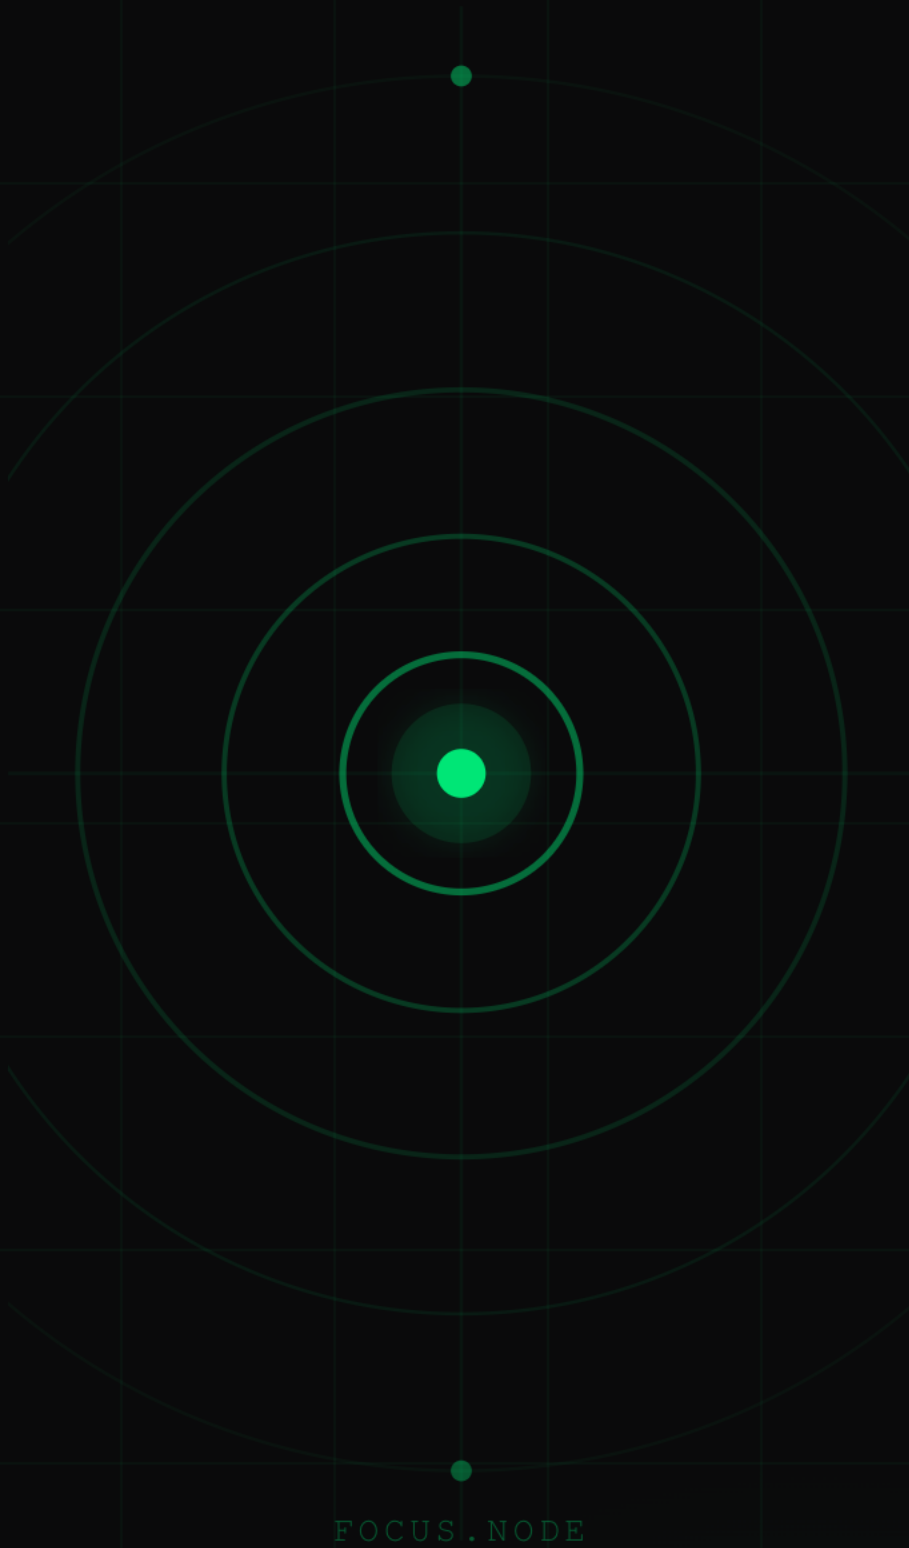

SYS.SIGNAL

03

They Blame the Model. It's Not the Model.

The demos worked. The pilots impressed. The agent itself held up. What broke was everything around it: monitoring, governance, error recovery, audit trails.

Build the Harness Before the Agent

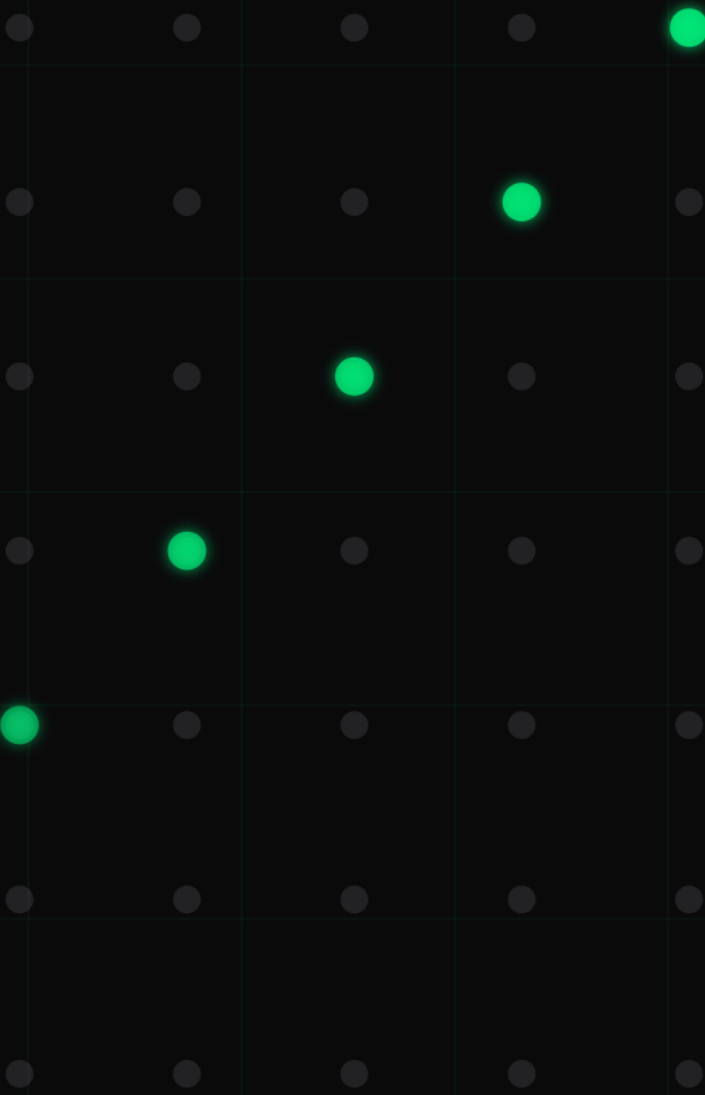

Most teams build the agent and skip the surrounding system. Then they're surprised when production exposes every edge case the sandbox never saw.

05

The 14% Did One Thing Differently

They answered monitoring, governance, and failure recovery first. The agent came second. That sequence is the entire difference.
