

Why I Turned Down a Full- Autonomy Outreach Pitch

—
The moment that saved a client account

DENSITY.MAP

02

A client wanted zero human touch on cold outreach

Fully generated sequences, fully generated replies, nothing reviewed before it went out.

PIPE.STATE

03

Artisan's Ava tried this and got called out on G2

Reviewers flagged its fully autonomous outreach
as generically AI-written. Prospects can smell it
now.

04 ·

We kept a human
checkpoint before
every send

Cost us maybe twenty minutes a day. That was
the entire tradeoff for full autonomy.

MATRIX.PATH

05

A rep caught a stale-
data error before it
reached a prospect

Bad timing, real damage if it had gone out. Full
autonomy would have sent it anyway.

EXEC.BRIEF / AI INFRASTRUCTURE

Follow me — I build in public

Autonomy without oversight is not the win it sounds like
