

EXECUTION LAYER

Ten agents per seller. Under 40% say it helped.

Gartner's prediction for 2028, via DestinationCRM. The ratio is the wrong scoreboard.

WRONG SCOREBOARD

The ratio promises volume, not output

Gartner predicts AI agents will outnumber sellers 10 to one by 2028. Counting agents tells you how much you deployed, not how much got done.

THE CEILING

Fewer than 40% of sellers will say it helped

Same prediction, second half. Journal of Sales Transformation reports the same two numbers. In Gartner's forecast, the volume arrives and the verdict doesn't.

LAYER ORDER

Agents sit on top of whatever is under them

DestinationCRM quotes Gartner: if the systems are fragmented, the agents will scale the fragmentation. Clean the base first. Agents go last.

PRE-FLIGHT

Four checks before the first agent ships

At Cloud 24 Digital, leads slipped through cracks and follow-ups lived in someone's memory. Agents inherit both.
